(b) in the case of a reporting issuer that is an SEC issuer filing its AIF in Form 10-K, Form 10-KSB or Form 20-F, on or before the earlier of

(i) the 90th day after the end of the reporting issuer's most recently completed financial year; and

(ii) the date the reporting issuer files its Form 10-K, Form 10-KSB or Form 20-F with the SEC.

6.3 [Repealed]

## **Part 7 - Material Change Reports**

7.1 Publication of Material Change - (1) Subject to subsection (2), if a material change occurs in the affairs of a reporting issuer, the reporting issuer must

(a) immediately issue and file a news release authorized by an executive officer disclosing the nature and substance of the change; and

(b) as soon as practicable, and in any event within 10 days of the date on which the change occurs, file a Form 51-102F3 Material Change Report with respect to the material change.

(2) Subsection (1) does not apply if,

(a) in the opinion of the reporting issuer, and if that opinion is arrived at in a reasonable manner, the disclosure required by subsection (1) would be unduly detrimental to the interests of the reporting issuer; or

(b) the material change consists of a decision to implement a change made by senior management of the reporting issuer who believe that confirmation of the decision by the board of directors is probable, and senior management of the reporting issuer has no reason to believe that persons with knowledge of the material change have made use of that knowledge in purchasing or selling securities of the reporting issuer,

and the reporting issuer immediately files the report required under paragraph (1)(b) marked so as to indicate that it is confidential, together with written reasons for non-disclosure.

(3) In Québec, subsection (1) does not apply to a reporting issuer in Québec if

(a) senior management of the reporting issuer has reasonable grounds to believe that disclosure required by subsection (1) would be seriously prejudicial to the interests of the reporting issuer and that no trade in the securities of the reporting issuer has been or will be carried out on the basis of the information not generally known; and

(b) the reporting issuer immediately files the report required under paragraph (1)(b) marked so as to indicate that it is confidential, together with written reasons for non-disclosure.

(4) If a reporting issuer relies on subsection (3), the reporting issuer must comply with subsection (1) when the circumstances that justify non-disclosure have ceased to exist.

(5) If a report has been filed under subsection (2) or (3), the reporting issuer must advise the regulator or securities regulatory authority in writing if it believes the report should continue to remain confidential, within 10 days of the date of filing of the initial report and every 10 days thereafter until the material change is generally disclosed in the manner referred to in paragraph (1)(a), or, if the material change consists of a decision of the type referred to in paragraph (2)(b), until that decision has been rejected by the board of directors of the reporting issuer.

(6) Despite subsection (5), in Ontario, the reporting issuer must advise the securities regulatory authority.

(7) If a report has been filed under subsection (2) or (3), the reporting issuer must promptly generally disclose the material change in the manner referred to in subsection (1) upon the reporting issuer becoming aware, or having reasonable grounds to believe, that persons or companies are purchasing or selling securities of the reporting issuer with knowledge of the material change that has not been generally disclosed.

## **Part 8 - Business Acquisition Report**

8.1 Interpretation and Application - (1) In this Part,

"acquisition" includes an acquisition of an interest in a business that is consolidated for accounting purposes or accounted for by another method, such as the equity method;

"acquisition of related businesses" means the acquisition of two or more businesses if

- (a) the businesses were under common control or management before the acquisitions were completed;
- (b) each acquisition was conditional upon the completion of each other acquisition; or
- (c) the acquisitions were contingent upon a single common event; and

"business" includes an interest in an oil and gas property to which reserves, as defined in National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities*, have been specifically attributed.

(2) This Part does not apply to a transaction that is a reverse takeover.

8.2 Obligation to File a Business Acquisition Report and Filing Deadline - (1) If a reporting issuer completes a significant acquisition, as determined under section 8.3, it must file a business acquisition report within 75 days after the date of acquisition.

(2) Despite subsection (1), if the most recently completed financial year of the acquired business ended 45 days or less before the date of acquisition, a reporting issuer must file a business acquisition report

- (a) within 90 days after the date of acquisition, in the case of an issuer other than a venture issuer, or
- (b) within 120 days after the date of acquisition, in the case of a venture issuer.

8.3 Determination of Significance - (1) Significant Acquisitions - Subject to subsection (3) and subsections 8.10(1) and 8.10(2), an acquisition of a business or related businesses is a significant acquisition,

(a) for a reporting issuer that is not a venture issuer, if the acquisition satisfies any of the three significance tests set out in subsection (2); and

(b) for a venture issuer, if the acquisition satisfies either of the significance tests set out in paragraphs (2)(a) or (b) if "20 percent" is read as "40 percent".

(2) Required Significance Tests - For the purposes of subsection (1), the significance tests are:

(a) The Asset Test - The reporting issuer's proportionate share of the consolidated assets of the business or related businesses exceeds 20 percent of the consolidated assets of the reporting issuer calculated using the audited financial statements of each of the reporting issuer and the business or the related businesses for the most recently completed financial year of each that ended before the date of the acquisition.

(b) The Investment Test - The reporting issuer's consolidated investments in and advances to the business or related businesses as at the date of the acquisition exceeds 20 percent of the consolidated assets of the reporting issuer as at the last day of the most recently completed financial year of the reporting issuer ended before the date of the acquisition, excluding any investments in or advances to the business or related

businesses as at that date.

(c) The Income Test - The reporting issuer's proportionate share of the consolidated income from continuing operations of the business or related businesses exceeds 20 percent of the consolidated income from continuing operations of the reporting issuer calculated using the audited financial statements of each of the reporting issuer and the business or related businesses for the most recently completed financial year of each ended before the date of acquisition.

(3) Optional Significance Tests - Despite subsection (1) and subject to subsections 8.10(1) and 8.10(2), if an acquisition of a business or related businesses is significant based on the significance tests in subsection (2),

(a) a reporting issuer that is not a venture issuer may re-calculate the significance using the optional significance tests in subsection (4); and

(b) a venture issuer may re-calculate the significance using the optional significance tests in paragraphs (4)(a) or (b) if "20 percent" is read as "40 percent".

(4) For the purposes of subsection (3), the optional significance tests are:

(a) The Asset Test - The reporting issuer's proportionate share of the consolidated assets of the business or related businesses exceeds 20 percent of the consolidated assets of the reporting issuer, calculated using the financial statements of each of the reporting issuer and the business or the related businesses for the most recently completed interim period or financial year of each, without giving effect to the acquisition.

(b) The Investment Test - The reporting issuer's consolidated investments in and advances to the business or related businesses as at the date of the acquisition exceeds 20 percent of the consolidated assets of the reporting issuer as at the last day of the most recently completed interim period or financial year of the reporting issuer, excluding any investments in or advances to the business or related businesses as at that date.

(c) The Income Test - The income from continuing operations calculated under the following subparagraph (i). exceeds 20 percent of the income from continuing operations calculated under the following subparagraph (ii).:

(i) the reporting issuer's proportionate share of the consolidated income from continuing operations of the business or related businesses for the later of

(A) the most recently completed financial year of the business or related businesses; or

(B) the 12 months ended on the last day of the most recently completed interim period of the business or related businesses;

(ii) the reporting issuer's consolidated income from continuing operations for the later of

(A) the most recently completed financial year, without giving effect to the acquisition; or

(B) the 12 months ended on the last day of the most recently completed interim period of the reporting issuer, without giving effect to the acquisition.

(5) If an acquisition does not meet any of the significance tests under subsection (4), the acquisition is not a significant acquisition.

(6) Despite subsection (3), the significance of an acquisition of a business or related businesses may be recalculated using financial statements for periods that ended after the date of acquisition only if, after the date of acquisition, the business or related businesses remained substantially intact and were not significantly reorganized, and no significant assets or liabilities were transferred to other entities.

(7) Application of the Income Test if a Loss Occurred - For the purposes of paragraphs (2)(c) and (4)(c), if any of the reporting issuer, the business or the related businesses has incurred a loss, the significance test must be applied using the absolute value of the loss.

(8) Application of the Income Test if Lower Than Average Income for the Most Recent Year - For the purposes of paragraph (2)(c) and clause (4)(c)(ii)(A), if the reporting issuer's consolidated income from continuing operations for the most recently completed financial year was lower by 20 percent or more than its average consolidated income from continuing operations for the three most recently completed financial years, the issuer may, subject to subsection (10), substitute the average consolidated income from continuing operations for the three most recently completed financial years in determining whether the significance test set out in paragraph (2)(c) or (4)(c) is satisfied.

(9) Application of the Optional Income Test if Lower Than Average Income for the Most Recent Year - For the purpose of clause (4)(c)(ii)(B) if the reporting issuer's consolidated income from continuing operations for the most recently completed 12-month period was lower by 20 percent or more than its average consolidated income from continuing operations for the three most recently completed 12-month periods, the issuer may, subject to subsection (10), substitute the average consolidated income for the three most recently completed 12-month periods in determining whether the significance test set out in paragraph (4)(c) is satisfied.

(10) Lower than Average Income of the Issuer if a Loss Occurred - If the reporting issuer's consolidated income from continuing operations for either of the two earlier financial periods referred to in subsections (8) and (9) is a loss, the reporting issuer's income from continuing operations for that period is considered to be zero for the purposes of calculating the average consolidated income for the three financial periods.

(11) Application of Significance Tests - Step-By-Step Acquisitions - If a reporting issuer has made a "step-by-step" purchase as described in the Handbook, then for the purposes of applying subsections (2) and (4),

(a) if the initial investment and one or more incremental investments were made during the same financial year, the investments must be aggregated and tested on a combined basis;

(b) if one or more incremental investments were made in a financial year subsequent to the financial year in which an initial or incremental investment was made and the initial or previous incremental investments are reflected in audited annual financial statements of the reporting issuer previously filed, the reporting issuer must apply the significance tests set out in subsections (2) and (4) on a combined basis to the incremental investments not reflected in audited financial statements of the reporting issuer previously filed; and

(c) if one or more incremental investments were made in a financial year subsequent to the financial year in which the initial investment was made and the initial investment is not reflected in audited annual financial statements of the reporting issuer previously filed, the reporting issuer must apply the significance tests set out in subsections (2) and (4) to the initial and incremental investments on a combined basis.

(11.1) Application of the Optional Income Test based on Pro Forma Financial Information - For the purposes of calculating the optional income test under clause (4)(c)(ii)(A), a reporting issuer may use pro forma consolidated income from continuing operations for its most recently completed financial year that was included in a previously filed document if

(a) the reporting issuer has made a significant acquisition of a business after its most recently completed financial year; and

(b) the previously filed document included

(i) audited annual financial statements of that acquired business for the periods required by this Part; and

(ii) the pro forma financial information required by subsection 8.4(5) or (6).

(12) Application of Significance Tests - Related Businesses - In determining whether an acquisition of related businesses is a significant acquisition, related businesses acquired after the ending date of the most recently filed annual audited financial statements of the reporting issuer must be considered on a combined basis.

(13) Application of Significance Tests - Accounting Principles and Currency - For the purposes of the significance tests in subsections (2) and (4), financial statements of the business or related businesses must be reconciled to the accounting principles used to prepare the reporting issuer's financial statements and translated into the same reporting currency as that used in the reporting issuer's financial statements.

(14) Application of Significance Tests - Use of Unaudited Financial Statements - Despite subsections (2) and (4), the significance of an acquisition of a business or related businesses may be calculated using unaudited financial statements of the business or related businesses that comply with subsection 6.1(1) of National Instrument 52-107 *Acceptable Accounting Principles, Auditing Standards and Reporting Currency* if the financial statements of the business or related businesses for the most recently completed financial year have not been audited.

(15) Application of Significance Tests - Use of Previous Audited Financial Statements - Despite subsections (2) and (4), the significance of an acquisition of a business or related businesses may be calculated using the audited financial statements for the financial year immediately preceding the reporting issuer's most recently completed financial year if the reporting issuer has not been required to file, and has not filed, audited financial statements for its most recently completed financial year.

8.4 Financial Statement Disclosure for Significant Acquisitions - (1) Comparative Annual Financial Statements - If a reporting issuer is required to file a business acquisition report under section 8.2, subject to sections 8.6 through 8.11, the business acquisition report must include the following for each business or related businesses:

(a) an income statement, a statement of retained earnings and a cash flow statement for the following periods:

(i) if the business has completed one financial year,

(A) the most recently completed financial year ended on or before the date of acquisition; and

(B) the financial year immediately preceding the most recently completed financial year, if any; or

(ii) if the business has not completed one financial year, the financial period commencing on the date of formation and ending on a date not more than 45 days before the date of acquisition;

(b) a balance sheet as at the end of each of the periods specified in paragraph (a); and

(c) notes to the financial statements.

(2) Audit - The most recently completed financial period referred to in subsection (1) must be audited.

(3) Interim Financial Statements - Subject to subsection (4) and sections 8.6 through 8.11, if a reporting issuer is required to include financial statements in a business acquisition report under subsection (1), the business acquisition report must include financial statements for

(a) the most recently completed interim period or other period that started the day after the date of the balance sheet specified in paragraph (1)(b) and ended,

(i) in the case of an interim period, before the date of acquisition; or

(ii) in the case of a period other than an interim period, after the interim period referred to in subparagraph (i) and on or before the date of acquisition; and

(b) a comparable period in the preceding financial year of the business.

(4) Earlier Interim Financial Statements Permitted - Despite subsection (3), the business acquisition report may include financial statements for a period ending not more than one interim period before the period referred to in subparagraph (3)(a)(i) if

(a) the business does not, or related businesses do not, constitute a material departure from the business or operations of the reporting issuer immediately before the acquisition;

(b) the reporting issuer will not account for the acquisition as a continuity of interests; and

(c) either

(i) the date of acquisition is, and the reporting issuer files the business acquisition report, within the following time after the business's or related businesses' most recently completed interim period:

(A) 45 days, if the reporting issuer is not a venture issuer; or

(B) 60 days, if the reporting issuer is a venture issuer; or

(ii) the reporting issuer filed a document before the date of acquisition that included financial statements for the business or related businesses that would have been required if the document were a prospectus, and those financial statements are for a period ending not more than one interim period before the interim period referred to in subparagraph (3)(a)(i).

(5) Pro Forma Financial Statements Required in a Business Acquisition Report - If a reporting issuer is required to include financial statements in a business acquisition report under subsection (1) or (3), the business acquisition report must include

(a) a pro forma balance sheet of the reporting issuer,

(i) as at the date of the reporting issuer's most recent balance sheet filed, that gives effect, as if they had taken place as at the date of the pro forma balance sheet, to significant acquisitions that have been completed, but are not reflected in the reporting issuer's most recent balance sheet for an annual or interim period; or

(ii) if the reporting issuer has not filed a balance sheet for any annual or interim period, as at the date of the acquired business's most recent balance sheet, that gives effect, as if they had taken place as at the date of the pro forma balance sheet, to significant acquisitions that have been completed;

(b) a pro forma income statement of the reporting issuer that gives effect to significant acquisitions completed after the ending date of the financial year referred to in clause (i)(A) or (ii)(A), as applicable, as if they had taken place at the beginning of that financial year, for each of the following financial periods:

(i) the reporting issuer's

(A) most recently completed financial year for which it has filed financial statements; and

(B) interim period for which it has filed financial statements that started after the period in clause (A) and ended immediately before the date of acquisition or, in the reporting issuer's discretion, after the date of acquisition; or

(ii) if the reporting issuer has not filed an income statement for any annual or interim period, for the business's or related businesses'

(A) most recently completed financial year that ended before the date of acquisition; and

(B) period for which financial statements are included in the business acquisition report under paragraph (3)(a); and

(c) pro forma earnings per share based on the pro forma financial statements referred to in paragraph (b).

(6) Pro Forma Financial Statements based on Earlier Interim Financial Statements Permitted - Despite paragraph (5)(a) and clauses (5)(b)(i)(B) and (5)(b)(ii)(B), if the reporting issuer relies on subsection (4), the business acquisition report may include

(a) a pro forma balance sheet as at the date of the balance sheet filed immediately before the reporting issuer's most recent balance sheet filed; and

(b) a pro forma income statement for the period ending not more than one interim period before the interim period referred to in clause (5)(b)(i)(B) or (5)(b)(ii)(B), as applicable.

(7) Preparation of Pro Forma Financial Statements - If a reporting issuer is required to include pro forma financial statements in a business acquisition report under subsection (5),

(a) the reporting issuer must identify in the pro forma financial statements each significant acquisition, if the pro forma financial statements give effect to more than one significant acquisition;

(b) the reporting issuer must include in the pro forma financial statements a description of the underlying assumptions on which the pro forma financial statements are prepared, cross-referenced to each related pro forma adjustment;

(c) if the financial year-end of the business differs from the reporting issuer's year-end by more than 93 days, for the purpose of preparing the pro forma income statement for the reporting issuer's most recently completed financial year, the reporting issuer must construct an income statement of the business for a period

of 12 consecutive months ending no more than 93 days before or after the reporting issuer's year-end, by adding the results for a subsequent interim period to a completed financial year of the business and deducting the comparable interim results for the immediately preceding year;

(d) if a constructed income statement is required under paragraph (c), the pro forma financial statements must disclose the period covered by the constructed income statement on the face of the pro forma financial statements and must include a note stating that the financial statements of the business used to prepare the pro forma financial statements were prepared for the purpose of the pro forma financial statements and do not conform with the financial statements for the business included elsewhere in the business acquisition report;

(e) if a reporting issuer is required to prepare a pro forma income statement for an interim period required by paragraph (5)(b), and the pro forma income statement for the most recently completed financial year includes results of the business which are also included in the pro forma income statement for the interim period, the reporting issuer must disclose in a note to the pro forma financial statements the revenue, expenses, gross profit and income from continuing operations included in each pro forma income statement for the overlapping period; and

(f) a constructed period referred to in paragraph (c) does not have to be audited.

(8) Financial Statements of Related Businesses - If a reporting issuer is required under subsection (1) to include financial statements for more than one business because the significant acquisition involves an acquisition of related businesses, the financial statements required under subsection (1) must be presented separately for each business, except for the periods during which the businesses have been under common control or management, in which case the reporting issuer may present the financial statements of the businesses on a combined basis.

#### 8.5 [Repealed]

8.6 Exemption for Significant Acquisitions Accounted for Using the Equity Method - A reporting issuer is exempt from the requirements in section 8.4 if

(a) the acquisition is, or will be, of an equity investee;

(b) the business acquisition report includes disclosure for the periods for which financial statements are otherwise required under subsection 8.4(1) that

(i) summarizes information as to the assets, liabilities and results of operations of the equity investee; and

(ii) describes the reporting issuer's proportionate interest in the equity investee and any contingent issuance of securities by the equity investee that might significantly affect the reporting issuer's share of earnings;

(c) the financial information provided under paragraph (b) for the most recently completed financial year

(i) has been derived from audited financial statements of the equity investee; or

(ii) has been audited; and

(d) the business acquisition report

(i) identifies the financial statements referred to in subparagraph (c)(i) from which the disclosure provided

under paragraph (b) has been derived; or

(ii) discloses that the financial information provided under paragraph (b), if not derived from audited financial statements, has been audited; and

(iii) discloses that the audit opinion with respect to the financial statements referred to in subparagraph (i), or the financial information referred to in subparagraph (ii), was issued without a reservation.

#### 8.7 [Repealed]

8.8 Exemption for Significant Acquisitions if Financial Year End Changed - If under section 8.4 a reporting issuer is required to provide financial statements for a business acquired and the business changed its financial year end during either of the financial years required to be included, the reporting issuer may include financial statements for the transition year in satisfaction of the financial statements for one of the years, provided that the transition year is at least nine months.

8.9 Exemption from Comparatives if Financial Statements Not Previously Prepared - A reporting issuer is not required to provide comparative information for interim financial statements required under subsection 8.4(3) for a business acquired if

(a) to a reasonable person it is impracticable to present prior-period information on a basis consistent with the most recently completed interim period of the acquired business;

(b) the prior-period information that is available is presented; and

(c) the notes to the interim financial statements disclose the fact that the prior-period information has not been prepared on a basis consistent with the most recent interim financial information.

8.10 Acquisition of an Interest in an Oil and Gas Property - (1) Asset Test - Despite subsections 8.3(2) and 8.3(4), the asset tests in paragraphs 8.3(2)(a) and 8.3(4)(a) do not apply to an acquisition

(a) of a business that is an interest in an oil and gas property or related businesses that are interests in oil and gas properties; and

(b) that is not of securities of another issuer.

(2) Income Test - Despite subsections 8.3(2), 8.3(4), 8.3(8), 8.3(9), 8.3(10) and 8.3(11.1), a reporting issuer must substitute "operating income" for "consolidated income from continuing operations" for the purposes of the income test in paragraphs 8.3(2)(c) and 8.3(4)(c) if the acquisition is one described in subsection (1).

(3) Exemption from Financial Statement Disclosure - A reporting issuer is exempt from the requirements in section 8.4 if

(a) the significant acquisition is an acquisition described in subsection (1);

(b) the reporting issuer is unable to provide the financial statements in respect of the significant acquisition otherwise required under this Part because those financial statements do not exist or because the reporting issuer does not have access to those financial statements;

(c) the acquisition does not constitute a reverse takeover;

(d) the business or related businesses did not, immediately before the time of completion of the acquisition, constitute a "reportable segment" of the vendor, as defined in the Handbook;

(e) subject to subsection (4), in respect of the business or related businesses, for each of the financial periods for which financial statements would, but for this section, be required under section 8.4, the business acquisition report includes

(i) an operating statement presenting for the business or related businesses at least the following:

(A) gross revenue;

(B) royalty expenses;

(C) production costs; and

(D) operating income;

(ii) a pro forma operating statement of the reporting issuer that gives effect to significant acquisitions completed after the ending date of the reporting issuer's most recently completed financial year for which financial statements are required to have been filed, as if they had taken place at the beginning of that financial year, for each of the financial periods referred to in paragraph 8.4(5)(b);

(ii) the estimated oil and gas production volumes from the business or related businesses for the first year reflected in the estimates disclosed under subparagraph (i).

(4) Exemption from Alternative Disclosure - A reporting issuer is exempt from the requirements of subparagraphs (3)(e)(i), (ii) and (iv), if

(a) production, gross revenue, royalty expenses, production costs and operating income were nil for the business or related businesses for each financial period; and

(b) the business acquisition report discloses this fact.

8.11 Exemption for Step-By-Step Acquisitions - Despite section 8.4, a reporting issuer is exempt from the requirements to file financial statements for an acquired business, other than the pro forma financial statements required by subsection 8.4(5), in a business acquisition report if the reporting issuer has made a

"step-by-step" purchase as described in the Handbook and the acquired business has been consolidated in the reporting issuer's most recent annual financial statements that have been filed.

## **Part 9 - Proxy Solicitation and Information Circulars**

9.1 Sending of Proxies and Information Circulars - (1) If management of a reporting issuer gives notice of a meeting to its registered holders of voting securities, management must, at the same time as or before giving that notice, send to each registered holder of voting securities who is entitled to notice of the meeting a form of proxy for use at the meeting.

(2) Subject to section 9.2, a person or company that solicits proxies from registered holders of voting securities of a reporting issuer must,

(a) in the case of a solicitation by or on behalf of management of a reporting issuer, send an information circular with the notice of meeting to each registered securityholder whose proxy is solicited; or

(b) in the case of any other solicitation, concurrently with or before the solicitation, send an information circular to each registered securityholder whose proxy is solicited.

(3) In Québec, subsections (1) and (2) apply, adapted as required, to a meeting of holders of debt securities of an issuer that is a reporting issuer in Québec, whether called by management of the reporting issuer or by the trustee of the debt securities.

9.2 Exemptions from Sending Information Circular - (1) Subsection 9.1(2) does not apply to a solicitation by a person or company in respect of securities of which the person or company is the beneficial owner.

(2) Paragraph 9.1(2)(b) does not apply to a solicitation if the total number of securityholders whose proxies are solicited is not more than 15.

(3) For the purposes of subsection (2), two or more persons or companies who are joint registered owners of one or more securities are considered to be one securityholder.

9.3 Filing of Information Circulars and Proxy-Related Material - A person or company that is required under this Instrument to send an information circular or form of proxy to registered securityholders of a reporting issuer must promptly file a copy of the information circular, form of proxy and all other material required to be sent by the person or company in connection with the meeting to which the information circular or form of proxy relates.

9.4 Content of Form of Proxy - (1) A form of proxy sent to securityholders of a reporting issuer by a person or company soliciting proxies must indicate in bold-face type whether or not the proxy is solicited by or on behalf of the management of the reporting issuer, provide a specifically designated blank space for dating the form of proxy and specify the meeting in respect of which the proxy is solicited.

(2) An information circular sent to securityholders of a reporting issuer or the form of proxy to which the information circular relates must

(a) indicate in bold-face type that the securityholder has the right to appoint a person or company to represent the securityholder at the meeting other than the person or company if any, designated in the form of proxy; and

(b) contain instructions as to the manner in which the securityholder may exercise the right referred to in

paragraph (a).

(3) If a form of proxy sent to securityholders of a reporting issuer contains a designation of a named person or company as nominee, it must provide an option for the securityholder to designate in the form of proxy some other person or company as the securityholder's nominee.

(4) A form of proxy sent to securityholders of a reporting issuer must provide an option for the securityholder to specify that the securities registered in the securityholder's name will be voted for or against each matter or group of related matters identified in the form of proxy, in the notice of meeting or in an information circular, other than the appointment of an auditor and the election of directors.

(5) A form of proxy sent to securityholders of a reporting issuer may confer discretionary authority with respect to each matter referred to in subsection (4) as to which a choice is not specified if the form of proxy or the information circular states in bold-face type how the securities represented by the proxy will be voted in respect of each matter or group of related matters.

(6) A form of proxy sent to securityholders of a reporting issuer must provide an option for the securityholder to specify that the securities registered in the name of the securityholder must be voted or withheld from voting in respect of the appointment of an auditor or the election of directors.

(7) An information circular sent to securityholders of a reporting issuer or the form of proxy to which the information circular relates must state that

(a) the securities represented by the proxy will be voted or withheld from voting in accordance with the instructions of the securityholder on any ballot that may be called for; and

(b) if the securityholder specifies a choice under subsection (4) or (6) with respect to any matter to be acted upon, the securities will be voted accordingly.

(8) A form of proxy sent to securityholders of a reporting issuer may confer discretionary authority with respect to

(a) amendments or variations to matters identified in the notice of meeting; and

(b) other matters which may properly come before the meeting,

if,

(c) the person or company by whom or on whose behalf the solicitation is made is not aware within a reasonable time before the time the solicitation is made that any of those amendments, variations or other matters are to be presented for action at the meeting; and

(d) a specific statement is made in the information circular or in the form of proxy that the proxy is conferring such discretionary authority.

(9) A form of proxy sent to securityholders of a reporting issuer must not confer authority to vote

(a) for the election of any person as a director of a reporting issuer unless a bona fide proposed nominee for that election is named in the information circular; or

(b) at any meeting other than the meeting specified in the notice of meeting or any adjournment of that meeting.

9.5 Exemption - Sections 9.1 to 9.4 do not apply to a reporting issuer that complies with the requirements of the laws under which it is incorporated, organized or continued, if

(a) the requirements are substantially similar to the requirements of this Part, and

(b) the person or company promptly files a copy of any information circular and form of proxy, or other documents that contain substantially similar information, sent by the person or company in connection with the meeting.;

### **Part 10 - Restricted Security Disclosure**

10.1 Restricted Security Disclosure - (1) Except as otherwise provided in section 10.3, if a reporting issuer has outstanding restricted securities, or securities that are directly or indirectly convertible into or exercisable or exchangeable for restricted securities or securities that will, when issued, result in an existing class of outstanding securities being considered restricted securities, each document referred to in subsection (2) must

(a) refer to restricted securities using a term that includes the appropriate restricted security term;

(b) not refer to securities by a term that includes "common", or "preference" or "preferred", unless the securities are common shares or preference shares, respectively;

(c) describe any restrictions on the voting rights of restricted securities;

(d) describe the rights to participate, if any, of holders of restricted securities if a takeover bid is made for securities of the reporting issuer with voting rights superior to those attached to the restricted securities;

(e) state the percentage of the aggregate voting rights attached to the reporting issuer's securities that are represented by the class of restricted securities; and

(f) if holders of restricted securities have no right to participate if a takeover bid is made for securities of the reporting issuer with voting rights superior to those attached to the restricted securities, contain a statement to that effect in bold-face type.

(2) Subsection (1) applies to the following documents except as provided in subsections (3) and (6):

(a) an information circular;

(b) a document required by this Instrument to be delivered upon request by a reporting issuer to any of its securityholders; and

(c) an AIF prepared by a reporting issuer.

(3) Despite subsection (2), annual financial statements, interim financial statements and MD&A or other accompanying discussion by management of those financial statements are not required to include the details referred to in paragraphs (1)(c), (d), (e) and (f).

(4) Each reference to restricted securities in any document not referred to in subsection (2) that a reporting

issuer sends to its securityholders must include the appropriate restricted security term.

(5) A reporting issuer must not refer, in any of the documents described in subsection (4), to securities by a term that includes "common" or "preference" or "preferred", unless the securities are common shares or preference shares, respectively.

(6) Despite paragraph (1)(b) and subsection (5), a reporting issuer may, in one place only in a document referred to in subsection (2) or (4), describe the restricted securities by the term used in the constating documents of the reporting issuer, to the extent that term differs from the appropriate restricted security term, if the description is not on the front page of the document and is in the same type face and type size as that used generally in the document.

10.2 Dissemination of Disclosure Documents to Holder of Restricted Securities - (1) If a reporting issuer sends a document to all holders of any class of its equity securities the document must also be sent by the reporting issuer at the same time to the holders of its restricted securities.

(2) A reporting issuer that is required by this Instrument to arrange for, or voluntarily makes arrangements for, delivery of the documents referred to in subsection (1) to the beneficial owners of any securities of a class of equity securities registered in the name of a registrant, must make similar arrangements for delivery of the documents to the beneficial owners of securities of a class of restricted securities registered in the name of the registrant.

10.3 Exemptions for Certain Reporting Issuers - The provisions of sections 10.1 and 10.2 do not apply to

(a) securities that carry a right to vote subject to a restriction on the number or percentage of securities that may be voted or owned by persons or companies that are not citizens or residents of Canada or that are otherwise considered as a result of any law applicable to the reporting issuer to be non-Canadians, but only to the extent of the restriction; and

(b) securities that are subject to a restriction, imposed by any law governing the reporting issuer, on the level of ownership of the securities by any person, company or combination of persons or companies, but only to the extent of the restriction.

## **Part 11 - Additional Disclosure Requirements**

(a) that it sends to its securityholders;

(b) in the case of an SEC issuer, that it files with or furnishes to the SEC under the 1934 Act, including material filed as exhibits to other documents, if the material contains information that has not been included in disclosure already filed in a jurisdiction by the SEC issuer; or

(c) that it files with another provincial or territorial securities regulatory authority or regulator other than in connection with a distribution.

(2) A reporting issuer must file the material referred to in subsection (1) on the same date as, or as soon as practicable after, the earlier of

(a) the date on which the reporting issuer sends the material to its securityholders;

(b) the reporting issuer ceases to be a venture issuer.

11.3 Voting Results - A reporting issuer that is not a venture issuer must, promptly following a meeting of securityholders at which a matter was submitted to a vote, file a report that discloses, for each matter voted upon

(a) a brief description of the matter voted upon and the outcome of the vote; and

(b) if the vote was conducted by ballot, including a vote on a matter in which votes are cast both in person and by proxy, the number or percentage of votes cast for, against or withheld from the vote.

11.4 Financial Information - A reporting issuer must file a copy of any news release issued by it that discloses information regarding its historical or prospective results of operations or financial condition for a financial year or interim period.

11.5 Re-filing Documents - If a reporting issuer decides it will

(b) re-state financial information for comparative periods in financial statements for reasons other than retroactive application of a change in an accounting standard or policy or a new accounting standard,

and the information in the re-filed document, or re-stated financial information, will differ materially from the information originally filed, the issuer must immediately issue and file a news release authorized by an executive officer disclosing the nature and substance of the change or proposed changes.

(b) it does not exist in an acceptable electronic format.

12.2 Filing of Other Material Contracts - (1) Unless previously filed, a reporting issuer must file a copy of any contract that it or any of its subsidiaries is a party to, other than a contract entered into in the ordinary course of business, that is material to the issuer and was entered into within the last financial year, or before the last financial year but is still in effect.

(2) If an executive officer of the reporting issuer has reasonable grounds to believe that disclosure of certain provisions of a contract required by subsection (1) to be filed would be seriously prejudicial to the interests of the reporting issuer, or would violate confidentiality provisions, the reporting issuer may file the contract with those certain provisions omitted or marked so as to be unreadable.

(3) Despite subsection (1), a reporting issuer is not required to file a contract entered into before January 1, 2002.

12.3 Time for Filing of Documents - The documents required to be filed under sections 12.1 and 12.2 must be filed no later than the time the reporting issuer files a material change report in Form 51-102F3, if the making of the document constitutes a material change for the issuer, and

(a) no later than the time the reporting issuer's AIF is filed under section 6.1, if the document was made or adopted before the date of the issuer's AIF; or

(b) if the reporting issuer is not required to file an AIF under section 6.1, within 120 days after the end of the issuer's most recently completed financial year, if the document was made or adopted before the end of the issuer's most recently completed financial year.

(2) Despite subsection (1), in Ontario only the regulator may grant such an exemption.

(3) Except in Ontario, an exemption referred to in subsection (1) is granted under the statute referred to in Appendix B of National Instrument 14-101 Definitions opposite the name of the local jurisdiction.

13.2 Existing Exemptions - (1) A reporting issuer that was entitled to rely on an exemption, waiver or approval granted to it by a regulator or securities regulatory authority relating to continuous disclosure requirements of securities legislation or securities directions existing immediately before this Instrument came into force is exempt from any substantially similar provision of this Instrument to the same extent and

on the same conditions, if any, as contained in the exemption, waiver or approval.

(2) A reporting issuer must, at the time that it first intends to rely on subsection (1) in connection with a filing requirement under this Instrument, inform the securities regulatory authority in writing of

(a) the general nature of the prior exemption, waiver or approval and the date on which it was granted; and

## **Part 14 - Effective Date and Transition**

14.1 Effective Date - This Instrument comes into force on March 30, 2004.

14.2 Transition - Despite section 14.1, section 5.7 applies for financial years of the reporting issuer beginning on or after January 1, 2007.

## **Companion Policy 51-102CP - Continuous Disclosure Obligations**

### **Part 1 - Introduction and Definitions**

1.1 Introduction and Purpose - (1) National Instrument 51-102 *Continuous Disclosure Obligations* (the "Instrument") sets out disclosure requirements for all issuers, other than investment funds, that are reporting issuers in one or more jurisdictions in Canada.

(2) The purpose of this Companion Policy (the "Policy") is to help you understand how the provincial and territorial regulatory authorities interpret or apply certain provisions of the Instrument. This Policy includes explanations, discussion and examples of various parts of the Instrument.

1.2 Filing Obligations - (1) Reporting issuers must file continuous disclosure documents under the Instrument only in the local jurisdictions in which they are a reporting issuer.

(2) In some circumstances, the Instrument permits an issuer to satisfy a filing requirement by filing a different document instead. If an issuer is relying on one of these sections, the issuer must file the substitute document in the appropriate filing category and type on SEDAR. For example, an exchangeable share issuer relying on section 13.3(2) that must file a copy of its parent issuer's annual financial statements must file those financial

statements under the exchangeable share issuer's SEDAR profile in the "Annual Financial Statement" filing type.

1.3 Corporate Law Requirements - Reporting issuers are reminded that they may be subject to requirements of corporate law that address matters similar to those addressed by the Instrument, and which may impose additional or more onerous requirements. For example, applicable corporate law may require the delivery of annual financial statements to shareholders or may require the board of directors to approve interim financial statements.

1.4 Definitions - (1) General - Many of the terms for which the Instrument or Forms prescribed by the Instrument provide definitions are defined somewhat differently in the applicable securities legislation of several local jurisdictions. A term used in the Instrument and defined in the securities statute of a local jurisdiction has the meaning given to it in the statute unless: (a) the definition in that statute is restricted to a specific portion of the statute that does not govern continuous disclosure; or (b) the context otherwise requires.

For instance, the terms "form of proxy", "material change", "proxy" and "recognized quotation and trade reporting system" are defined in local securities legislation of most jurisdictions. The provincial and territorial regulatory authorities consider the meanings given to these terms in securities legislation to be substantially similar to the definitions set out in the Instrument.

(2) Asset-backed security - Section 1.8 of Companion Policy 44-101CP provides guidance for the definition of "asset-backed security".

(3) Directors and Executive Officers - Where the Instrument or any of the Forms use the term "directors" or "executive officers", a reporting issuer that is not a corporation must refer to the definitions in securities legislation of "director". The definition of "director" typically includes a person acting in a capacity similar to that of a director of a company. Therefore, non-corporate issuers must determine in light of the particular circumstances which individuals or persons are acting in such capacities for the purposes of complying with the Instrument and the Forms. Further, in considering paragraph (c) of the definition of "executive officer", we would consider an individual that is employed by an entity separate from the reporting issuer, but that performs a policy-making function in respect of the reporting issuer through that separate entity or otherwise, to fit within this definition.

Similarly, the terms chief executive officer and chief financial officer should be read to include the individuals who have the responsibilities normally associated with these positions or act in a similar capacity. This determination should be made irrespective of an individual's corporate title or whether that individual is employed directly or acts pursuant to an agreement or understanding.

(4) Investment Fund - Generally, the definition of "investment fund" would not include a trust or other entity that issues securities which entitle the holder to substantially all of the net cash flows generated by: (i) an underlying business owned by the trust or other entity, or (ii) the income-producing properties owned by the trust or other entity. Examples of trusts or other entities that are not included in the definition are business income trusts, real estate investment trusts and royalty trusts.

(5) Reverse Takeover - The definition of reverse takeover is tied to the concept for accounting purposes. For issuers that use Canadian GAAP, the Handbook defines what transactions an issuer must treat as a reverse takeover. Under the Handbook, although legally the enterprise (the legal parent) that issued the securities is regarded as the parent or continuing enterprise, the enterprise (the legal subsidiary) whose former securityholders now control (as that term is used in the Handbook) the combined enterprise is treated as the acquirer for accounting purposes. As a result, for accounting purposes, the issuing enterprise (the legal parent) is deemed to be a continuation of the acquirer and the acquirer is deemed to have acquired control of the

assets and business of the issuing enterprise in consideration for the issue of capital.

(6) Restructuring transaction - A "restructuring transaction" includes a transaction in which a reporting issuer acquires assets, which may include assets that constitute a business, and issues securities resulting in

- new securityholders owning or controlling more than 50% of the reporting issuer's outstanding voting securities, and
- a new control person or company, or new control group.

The acquisition and issuance may be in a single transaction, or a series of transactions. To be a "series of transactions", the transactions must be related to each other.

The phrase "new securityholders" includes both beneficial owners who did not hold any of the reporting issuer's securities before the restructuring transaction, and beneficial owners that held some securities in the reporting issuer before the transaction, but who now, as a result of the transaction, own more than 50% of the outstanding voting securities.

1.5 Plain Language Principles - We believe that plain language will help investors understand your disclosure so that they can make informed investment decisions. You can achieve this by

- using short sentences
- using definite everyday language
- using the active voice
- avoiding superfluous words
- organizing the document in clear, concise sections, paragraphs and sentences
- avoiding jargon
- using personal pronouns to speak directly to the reader
- avoiding reliance on glossaries and defined terms unless it facilitates understanding of the disclosure
- not relying on boilerplate wording
- avoiding abstract terms by using more concrete terms or examples
- avoiding multiple negatives
- using technical terms only when necessary and explaining those terms
- using charts, tables and examples where it makes disclosure easier to understand.

1.6 Signature and Certificates - Reporting issuers are not required by the Instrument to sign or certify documents filed under the Instrument. Certification requirements apply to some documents under Multilateral

Instrument 52-109 *Certification of Disclosure in Companies' Annual and Interim Filings*. Whether or not a document is signed or certified, it is an offence under securities legislation to make a false or misleading statement in any required document.

1.7 Audit Committees - Reporting issuers are reminded that their audit committees must fulfill their responsibilities set out in other securities legislation. For example, the responsibilities of audit committees are set out in Multilateral Instrument 52-110 *Audit Committees* or, in British Columbia, BC Instrument 52-509 *Audit Committees*.

1.8 Acceptable Accounting Principles, Auditing Standards and Reporting Currency - An issuer filing any of the following items under the Instrument must comply with National Instrument 52-107 *Acceptable Accounting Principles, Auditing Standards and Reporting Currency* ("NI 52-107"):

(a) financial statements;

(b) an operating statement for an oil and gas property as referred to in section 8.10 of the Instrument;

(c) financial information as to the assets, liabilities and results of operations of a business as referred to in section 8.6 of the Instrument; or

(d) financial information derived from a credit support issuer's financial statements as referred to in section 13.4 of the Instrument.

NI 52-107 sets out, among other things, when issuers can use accounting principles and auditing standards other than Canadian accounting principles and auditing standards in preparing financial statements.

1.9 Ordinary Course of Business - Whether a contract has been entered into in the ordinary course of business is a question of fact. It must be considered in the context of the reporting issuer's business and the industry in which it operates.

1.10 Material Deficiencies - After filing a document under the Instrument, a reporting issuer may determine that the document was materially deficient in some respect and, as a result, the filing does not comply with the requirements of the Instrument. In this situation, the reporting issuer is expected to comply with the Instrument by filing an amended version of the materially deficient document.

## **Part 2 - Foreign Issuers and Investment Funds**

2.1 Foreign Issuers - National Instrument 71-102 *Continuous Disclosure and Other Exemptions Relating to Foreign Issuers* provides relief for foreign reporting issuers from certain continuous disclosure and other obligations, including certain obligations contained in the Instrument.

2.2 Investment Funds - Section 2.1 of the Instrument states that the Instrument does not apply to an investment fund. Investment funds should look to securities legislation of the local jurisdiction including National Instrument 81-106 *Investment Fund Continuous Disclosure* to find the continuous disclosure requirements applicable to them.

## **Part 3 - Financial Statements**

3.1 Financial Year - (1) Length of Financial Year - For the purposes of the Instrument, unless otherwise expressly provided, references to a financial year apply irrespective of the length of that year. The first financial year of a reporting issuer commences on the date of its incorporation or organization and ends at the

close of that year.

(2) Non-Standard Year - An issuer with a non-standard year should advise the regulator or securities regulatory authority how it calculates its interim and annual periods before its first financial statements are due under the Instrument.

3.2 Audit of Comparative Annual Financial Statements - Section 4.1 of the Instrument requires a reporting issuer to file annual financial statements that include comparative information for the immediately preceding financial year and that are audited. The auditor's report must cover both the most recently completed financial year and the comparative period, except if the issuer changed its auditor during the periods presented in the financial statements and the new auditor has not audited the comparative period. In this situation, the auditor's report would normally refer to the former auditor's report on the comparative period and the former auditor's report would not be re-filed. This is consistent with Assurance and Related Services Guideline AuG-8 *Auditor's Report on Comparative Financial Statements* in the Handbook.

3.3 Filing Deadline for Annual Financial Statements and Auditor's Report - Section 4.2 of the Instrument sets out filing deadlines for annual financial statements. While section 4.2 of the Instrument does not address the auditor's report date, reporting issuers are encouraged to file their annual financial statements as soon as practicable after the date of the auditor's report. The delivery obligations set out in section 4.6 of the Instrument are not tied to the filing of the financial statements.

3.4 Auditor Involvement with Interim Financial Statements - (1) The board of directors of a reporting issuer, in discharging its responsibilities for ensuring the reliability of interim financial statements, should consider engaging an external auditor to carry out a review of the interim financial statements.

(2) Subsection 4.3(3) of the Instrument requires a reporting issuer to disclose if an auditor has not performed a review of the interim financial statements, to disclose if an auditor was unable to complete a review and why, and to file a written report from the auditor if the auditor has performed a review and expressed a reservation in the auditor's interim review report. No positive statement is required when an auditor has performed a review and provided an unqualified communication. If an auditor was engaged to perform a review on interim financial statements applying review standards set out in the Handbook, and the auditor was unable to complete the review, the issuer's disclosure of the reasons why the auditor was unable to complete the review would normally include a discussion of

(a) inadequate internal control;

(b) a limitation on the scope of the auditor's work; or

(c) the failure of management to provide the auditor with the written representations the auditor believes are necessary.

(3) If a reporting issuer's annual financial statements are audited in accordance with Canadian GAAS, the terms "review" and "interim review report" used in subsection 4.3(3) of the Instrument refer to the auditor's review of, and report on, interim financial statements applying standards for a review of interim financial statements by the auditor as set out in the Handbook. However, if the reporting issuer's financial statements are audited in accordance with auditing standards other than Canadian GAAS, the corresponding review standards should be applied.

3.5 Delivery of Financial Statements - Section 4.6 of the Instrument requires reporting issuers to send a request form to the registered holders and beneficial owners of their securities. The registered holders and beneficial owners may use the request form to request a copy of the reporting issuer's annual financial

statements and related MD&A, interim financial statements and related MD&A, or both. Reporting issuers are only required to deliver financial statements and MD&A to the person or company that requests them. As a result, if a beneficial owner requests financial statements and MD&A through its intermediary, the issuer is only required to deliver the requested documents to the intermediary.

Failing to return the request form or otherwise specifically request a copy of the financial statements or MD&A from the reporting issuer will override the beneficial owner's standing instructions under NI 54-101 in respect of the financial statements.

The Instrument does not prescribe when the request form must be sent, or how it must be returned to the reporting issuer.

3.6 Comparative Interim Financial Information After Becoming a Reporting Issuer - Section 4.7(4) of the Instrument provides that a reporting issuer does not have to provide comparative financial information when it first becomes a reporting issuer if it complies with specific requirements. Section 4.10(3) of the Instrument provides a similar exemption for comparative financial information for a reverse takeover acquirer. These exemptions may, for example, apply to an issuer that was, before becoming a reporting issuer or before the reverse takeover, a private entity and that is unable to prepare the comparative financial information because it is impracticable to do so.

3.7 Change in Year-End - Appendix A to this Policy is a chart outlining the financial statement filing requirements under section 4.8 of the Instrument if a reporting issuer changes its financial year-end.

3.8 Reverse Takeovers - (1) Following a reverse takeover, although the reverse takeover acquiree is the reporting issuer, from an accounting perspective, the financial statements will be those of the reverse takeover acquirer. Those financial statements must be prepared and filed as if the reverse takeover acquirer had always been the reporting issuer.

(2) The reverse takeover acquiree must file its own financial statements required by sections 4.1 and 4.3 and the related MD&A for all interim and annual periods ending before the date of the reverse takeover, even if the filing deadline for those financial statements is after the date of the reverse takeover.

3.9 Change in Corporate Structure - (1) Section 4.9 of the Instrument requires a reporting issuer to file a notice if the issuer has been party to certain transactions. The reporting issuer may satisfy this requirement by filing a copy of its material change report or news release, provided that

(a) the material change report or news release contains all the information required in the notice; and

(b) the reporting issuer files the material change report or news release with the securities regulatory authority or regulator

(i) under the Change in Corporate Structure category on SEDAR, or

(ii) if the issuer is not an electronic filer, as a notice under section 4.9.

(2) If the transaction was a reverse takeover, the notice should state that fact and who the reverse takeover acquirer was for accounting purposes.

(3) Under paragraph 4.9(h) of the Instrument, the issuer must state the periods of the interim and annual financial statements it has to file for its first financial year. Issuers should explain how they determined the periods, particularly if section 4.7 of the Instrument applies.

3.10 Change of Auditor - The term "disagreement" defined in subsection 4.11(1) should be interpreted broadly. A disagreement may not involve an argument, but rather, a mere difference of opinion. Also, where a difference of opinion occurs that meets the criteria in item (b) of the definition of "disagreement", and the issuer reluctantly accepts the auditor's position in order to obtain an unqualified report, a reportable disagreement may still exist. The subsequent rendering of an unqualified report does not, by itself, remove the necessity for reporting a disagreement.

Subsection 4.11(5) of the Instrument requires a reporting issuer, upon a termination or resignation of its auditor, to prepare a change of auditor notice, have the audit committee or board of directors approve the notice, file the reporting package with the applicable regulator or securities regulatory authority in each jurisdiction where it is a reporting issuer, and if there are any reportable events, issue and file a news release describing the information in the reporting package. Subsection 4.11(6) of the Instrument requires the reporting issuer to perform these procedures upon an appointment of a successor auditor. If a termination or resignation of a former auditor and appointment of a successor auditor occur within a short period of time, it may be possible for a reporting issuer to perform the procedures described above required by both subsections 4.11(5) and 4.11(6) concurrently and meet the timing requirements set out in those subsections. In other words, the reporting issuer would prepare only one comprehensive notice and reporting package.

#### **Part 4 - Disclosure of Financial Information**

4.1 Disclosure of Financial Results - (1) Subsection 4.5(1) of the Instrument requires that annual financial statements be approved by the board of directors before filing. Subsections 4.5(2) and 4.5(3) of the Instrument require that interim financial statements be approved by the board of directors or by the company's audit committee before filing. We believe that extracting information from financial statements that have not been approved as required by those provisions and releasing that information to the marketplace in a news release is inconsistent with the prior approval requirement. Also see National Policy 51-201 *Disclosure Standards*.

(2) Reporting issuers that intend to disclose financial information to the marketplace in a news release should consult NI 52-107. We believe that disclosing financial information in a news release without disclosing the accounting principles used is inconsistent with the requirement in NI 52-107 to identify the accounting principles used in the financial statements.

4.2 Non-GAAP Financial Measures - Reporting issuers that intend to publish financial measures other than those prescribed by GAAP should refer to CSA Staff Notice 52-306 *Non-GAAP Financial Measures* for a discussion of staff expectations concerning the use of non-GAAP measures.

#### **Part 4A - Forward-Looking Information**

4A.1 Application - Section 4A.1 of the Instrument indicates that Part 4A applies to forward-looking information that is disclosed by a reporting issuer other than forward-looking information contained in oral statements. Reporting issuers should consider broadly the various instances of forward-looking information made available to the public in considering the scope of forward-looking information that is disclosed. This includes, but is not limited to:

- Information that a reporting issuer files with securities regulators
- Information contained in news releases issued by a reporting issuer
- Information published on a reporting issuer's website

- Information published in marketing materials or other similar materials prepared by a reporting issuer or distributed to the public by a reporting issuer.

4A.2 Reasonable Basis - Section 4A.2 of the Instrument requires a reporting issuer to have a reasonable basis for any forward-looking information it discloses. When interpreting "reasonable basis", reporting issuers should consider:

(a) the reasonableness of the assumptions underlying the forward-looking information; and

(b) the process followed in preparing and reviewing forward-looking information.

4A.3 Material Forward-Looking Information - Section 4A.3 and section 5.8 of the Instrument require a reporting issuer to include specified disclosure in material forward-looking information it discloses. Reporting issuers should exercise judgement when determining whether information is material. If a reasonable investor's decision whether or not to buy, sell or hold securities of the reporting issuer would be influenced or changed if the information were omitted or misstated, then the information is likely material. This concept of materiality is consistent with the one contained in the Handbook.

Section 1.1 contains definitions of the terms "financial outlook" and "FOFI." We consider FOFI and most financial outlooks to be material forward-looking information. Examples of financial outlooks include expected revenues, net income, earnings per share and R&D spending. A financial outlook relating to earnings is commonly referred to as "earnings guidance."

An example of forward-looking information that is not a financial outlook or FOFI would be an estimate of future store openings by an issuer in the retail industry. This type of information may or may not be material, depending on whether a reasonable investor's decision whether or not to buy, sell or hold securities of that issuer would be influenced or changed if the information were omitted or misstated.

4A.4 Location of Disclosure - Section 4A.3 of the Instrument requires that any material forward-looking information include specified disclosure. This disclosure should be presented in a manner that allows an investor who reads the document or other material containing the forward-looking information to be able to readily:

(a) understand that the forward-looking information is being provided in the document or other material;

(b) identify the forward-looking information; and

(c) inform himself or herself of the material assumptions underlying the forward-looking information and the material risk factors associated with the forward-looking information.

4A.5 Disclosure of Cautionary Language and Material Risk Factors - (1) Paragraph 4A.3(b) of the Instrument requires a reporting issuer to accompany any material forward-looking information with disclosure that cautions users that actual results may vary from the forward-looking information and identifies material risk factors that could cause material variation. The material risk factors identified in the cautionary language should be relevant to the forward-looking information and the disclosure should not be boilerplate in nature.

(2) The cautionary statements required by paragraph 4A.3(b) of the Instrument should identify significant and reasonably foreseeable factors that could reasonably be expected to cause results to differ materially from those projected in the material forward-looking statement. Reporting issuers should not interpret this as requiring a reporting issuer to anticipate and discuss everything that could conceivably cause results to differ.

4A.6 Disclosure of Material Factors or Assumptions - Paragraph 4A.3(c) of the Instrument requires a reporting issuer to disclose the material factors or assumptions used to develop material forward-looking information. The factors or assumptions should be relevant to the forward-looking information. Disclosure of material factors or assumptions does not require an exhaustive statement of every factor or assumption applied - a materiality standard applies.

4A.7 Date of Assumptions - Management of a reporting issuer that discloses material forward-looking information should satisfy itself that the assumptions are appropriate as of the date management discloses the material forward-looking information even though the material forward-looking information may have been prepared at an earlier time, and may be based on information accumulated over a period of time.

4A.8 Time Period - Paragraph 4B.2(2)(a) of the Instrument requires a reporting issuer to limit the period covered by FOFI or a financial outlook to a period for which the information can be reasonably estimated. In many cases that time period will not go beyond the end of the reporting issuer's next fiscal year. Some of the factors a reporting issuer should consider include the reporting issuer's ability to make appropriate assumptions, the nature of the reporting issuer's industry, and the reporting issuer's operating cycle.

4A.9 FOFI - Section 4250 *Future-Oriented Financial Information* (Section 4250) of the CICA Handbook is relevant to reporting issuers who disclose FOFI. If a reporting issuer determines that it has a reasonable basis for FOFI prepared using one or more hypotheses, as that term is defined in CICA Handbook Section 4250, the hypotheses should be consistent with the courses of action that the reporting issuer intends to adopt.

## **Part 5 - MD&A**

5.1 Delivery of MD&A - Reporting issuers are not required to send a request form to their securityholders under Part 5 of the Instrument. This is because the request form that must be delivered under section 4.6 of the Instrument relates to both a reporting issuer's financial statements, and the MD&A applicable to those financial statements.

5.2 Additional Information for Venture Issuers Without Significant Revenue - Section 5.3 of the Instrument requires certain venture issuers to provide in their annual or interim MD&A or MD&A supplement (unless the information is included in their interim and annual financial statements), a breakdown of material costs whether capitalized, deferred or expensed. A component of cost is generally considered to be a material component if it exceeds the greater of

(a) 20% of the total amount of the class; and

(b) \$25,000.

5.3 Disclosure of Outstanding Share Data - Section 5.4 of the Instrument requires disclosure of information relating to the outstanding securities of the reporting issuer as of the latest practicable date. The "latest practicable date" should be current, as close as possible, to the date of filing of the MD&A. Disclosing the number of securities outstanding at the period end is generally not sufficient to meet this requirement.

5.4 Additional Disclosure for Equity Investees - Section 5.7 of the Instrument requires issuers with significant equity investees to provide in their annual or interim MD&A or MD&A supplement (unless the information is included in their interim and annual financial statements), summarized information about the equity investee. Generally, we will consider that an equity investee is significant if the equity investee would meet the thresholds for the significance tests in Part 8 using the financial statements of the equity investee and the issuer as at the issuer's financial year-end.

5.5 Previously disclosed material forward-looking information - (1) Subsection 5.8(2) of the Instrument requires a reporting issuer to discuss certain events and circumstances that occurred during the period to which its MD&A relates. The events to be discussed are those that are reasonably likely to cause actual results to differ materially from material forward-looking information for a period that is not yet complete. This discussion is only required if the reporting issuer previously disclosed the forward-looking information to the public. Subsection 5.8(2) also requires a reporting issuer to discuss the expected differences.

For example, assume that a reporting issuer published FOFI for the current year assuming no change in the prime interest rate, but by the end of the second quarter the prime interest rate went up by 2%. In its MD&A for the second quarter, the reporting issuer should discuss the interest rate increase and its expected effect on results compared to those indicated in the FOFI.

A reporting issuer should consider whether the events and circumstances that trigger MD&A or MD&A supplement disclosure under subsection 5.8(2) of the Instrument might also trigger material change reporting requirements under Part 7 of the Instrument.

(2) Subsection 5.8(4) of the Instrument requires a reporting issuer to disclose and discuss material differences between actual results for the annual or interim period to which its MD&A or MD&A supplement relates and any FOFI or financial outlook for that period that the reporting issuer previously disclosed to the public. A reporting issuer should disclose and discuss material differences for material individual items included in the FOFI or financial outlook, including assumptions.

For example, if the actual dollar amount of revenue approximates forecasted revenue but the sales mix or sales volume differs materially from what the reporting issuer expected, the reporting issuer should explain the differences.

(3) Subsection 5.8(5) of the Instrument addresses a reporting issuer's decision to withdraw previously disclosed material forward-looking information. The subsection requires the reporting issuer to disclose that decision and discuss the events and circumstances that led the reporting issuer to the decision to withdraw the material forward-looking information, including a discussion of the assumptions included in the material forward-looking information that are no longer valid. A reporting issuer should consider whether the events and circumstances that trigger MD&A or MD&A supplement disclosure under subsection 5.8(5) of the Instrument might also trigger material change reporting requirements under Part 7 of the Instrument. We encourage all reporting issuers to promptly communicate to the market a decision to withdraw material forward-looking information, even if the material change reporting requirements are not triggered.

## **Part 6 - AIF**

6.1 Additional and Supporting Documentation - Any material incorporated by reference in an AIF is required to be filed with the AIF unless the material has been previously filed. When a reporting issuer using SEDAR files a previously unfiled document with its AIF, the reporting issuer should ensure that the document is filed under the appropriate SEDAR filing type and document type specifically applicable to the document, rather than generic type "Documents Incorporated by Reference". For example, a reporting issuer that has incorporated by reference an information circular in its AIF and has not previously filed the circular should file the circular under the "Management Proxy Materials" filing subtype and the "Management proxy/information circular" document type.

If the reporting issuer incorporates a document, or a portion of a document, by reference into its AIF, and that document, or that portion of the document, as applicable, incorporates another document by reference, the issuer must also file the underlying document with its AIF.

6.2 AIF Disclosure of Asset-backed Securities - (1) Factors to consider - Issuers that have distributed asset-backed securities under a prospectus are required to provide disclosure in their AIF under section 5.3 of Form 51-102F2. Issuers of asset-backed securities must determine which other prescribed disclosure is applicable and ought to be included in the AIF. Applicable disclosure for a special purpose issuer of asset-backed securities generally pertains to the nature, performance and servicing of the pool of financial assets servicing the asset-backed security. The nature and extent of required disclosure may vary depending on the type and attributes of the underlying pool.

An issuer of asset-backed securities should consider the following factors in preparing its AIF:

1. The extent of disclosure respecting the issuer will depend on the extent of the issuer's on-going involvement in the conversion of the assets comprising the pool to cash, and the distribution of cash to securityholders; this involvement may, in turn, vary dramatically depending on the type, quality and attributes of the assets comprising the pool and on the overall structure of the transaction.

2. Requested disclosure respecting the business and affairs of the issuer should be interpreted to apply to the financial assets underlying the asset-backed securities.

3. Financial information respecting the pool of assets to be described and analyzed in the AIF will consist of information commonly set out in servicing reports prepared to describe the performance of the pool and the specific allocations of income, loss and cash flows applicable to outstanding asset-backed securities made during the relevant period.

(2) Underlying pool of assets - Paragraph 5.3(2)(a) of Form 51-102F2 requires issuers of asset-backed securities that were distributed by way of prospectus to include information relating to the composition of the underlying pool of financial assets, the cash flows from which service the asset-backed securities. Disclosure respecting the composition of the pool will vary depending upon the nature and number of the underlying financial assets. For example, in a geographically dispersed pool of financial assets, it may be appropriate to provide a summary disclosure based on the location of obligors. In the context of a revolving pool, it may be appropriate to provide details relating to aggregate outstanding balances during a year to illustrate historical fluctuations in asset origination due, for example, to seasonality. In pools of consumer debt obligations, it may be appropriate to provide a breakdown within ranges of amounts owing by obligors in order to illustrate limits on available credit extended.

## **Part 7 - Material Change Reports**

7.1 Publication of News Release - Section 7.1 of the Instrument requires reporting issuers to immediately issue and file a news release disclosing the nature of a material change. This requirement is substantively the same as the material change reporting requirements in some securities legislation for the news release to be issued forthwith.

## **Part 8 - Business Acquisition Reports**

8.1 Obligations to File a Business Acquisition Report - (1) Filing of a Material Change Report - The requirement in the Instrument for a reporting issuer to file a business acquisition report is in addition to the reporting issuer's obligation to file a material change report, if the significant acquisition constitutes a material change.

(2) Filing of a Business Acquisition Report by SEC Issuers - If a document or a series of documents that an SEC issuer files with or furnishes to the SEC in connection with a business acquisition contains all of the

information, including financial statements, required to be included in a business acquisition report under the Instrument, the SEC issuer may file a copy of the documents as its business acquisition report.

(3) Financial Statement Disclosure of Significant Acquisitions - Reporting issuers are reminded that NI 52-107 prescribes the accounting principles, auditing standards and reporting currency that must be used to prepare and audit the financial statements required by Part 8 of the Instrument.

(4) Acquisition of a Business - A reporting issuer that has made a significant acquisition must include in its business acquisition report certain financial statements of each business acquired. The term "business" should be evaluated in light of the facts and circumstances involved. We generally consider that a separate entity, a subsidiary or a division is a business and that in certain circumstances a smaller component of a company may also be a business, whether or not the business previously prepared financial statements. In determining whether an acquisition constitutes the acquisition of a business, a reporting issuer should consider the continuity of business operations, including the following factors:

(a) whether the nature of the revenue producing activity or potential revenue producing activity will remain generally the same after the acquisition; and

(b) whether any of the physical facilities, employees, marketing systems, sales forces, customers, operating rights, production techniques or trade names are acquired by the reporting issuer instead of remaining with the vendor after the acquisition.

(5) Acquisition by a Subsidiary - If a reporting issuer's subsidiary, which is also a reporting issuer, has acquired a business, both the parent and subsidiary must test the significance of the acquisition. Even if the subsidiary files a business acquisition report, the parent must also file a business acquisition report if the acquisition is also significant for the parent.

8.2 Significance Tests - (1) Nature of Significance Tests - Subsection 8.3(2) of the Instrument sets out the required significance tests for determining whether an acquisition of a business by a reporting issuer is a "significant acquisition". The first test measures the assets of the acquired business against the assets of the reporting issuer. The second test measures the reporting issuer's investments in and advances to the acquired business against the assets of the reporting issuer. The third test measures the income from continuing operations of the acquired business against the income from continuing operations of the reporting issuer. If any one of these three tests is satisfied at the prescribed level, the acquisition is considered "significant" to the reporting issuer. The test must be applied as at the time of the acquisition using the most recent annual audited financial statements of the reporting issuer and the business. These tests are similar to requirements of the SEC and provide issuers with certainty that if an acquisition is not significant at the time of the acquisition, then no business acquisition or report will be required to be filed.

(2) Business Using Accounting Principles Other Than Those Used by the Reporting Issuer - Subsection 8.3(13) of the Instrument provides that where the financial statements of the business or related businesses are prepared in accordance with accounting principles other than those used in reporting issuer's financial statements, for purposes of applying the significance tests, the relevant financial statements for the business or related businesses must be reconciled. It is unnecessary for the reconciliation to be audited for the purpose of the tests.

(3) Acquisition of a Previously Unaudited Business - Subsections 8.3(2) and 8.3(4) of the Instrument require the significance of an acquisition to be determined using the most recent audited financial statements of the reporting issuer and the business acquired. However, if the financial statements of the business or related businesses for the most recently completed financial year were not audited, subsection 8.3(14) of the Instrument permits use of the unaudited financial statements for the purpose of applying the significance tests. If the acquisition is determined to be significant, then the annual financial statements required by subsection

8.4(1) of the Instrument must be audited.

(4) Application of Investment Test for Significance of an Acquisition - One of the significance tests set out in subsections 8.3(2) and (4) of the Instrument is whether the reporting issuer's consolidated investments in and advances to the business or related businesses exceed a specified percentage of the consolidated assets of the reporting issuer. In applying this test, the "investments in" the business should be determined using the total cost of the purchase, as determined by generally accepted accounting principles, including consideration paid or payable and the costs of the acquisition. If the acquisition agreement includes a provision for contingent consideration, for the purpose of applying the test, the contingent consideration should be included in the total cost of the purchase unless the likelihood of payment is considered remote at the date of the acquisition. In addition, any payments made in connection with the acquisition which would not constitute purchase consideration but which would not have been paid unless the acquisition had occurred, should be considered part of investments in and advances to the business for the purpose of applying the significance tests. Examples of such payments include loans, royalty agreements, lease agreements and agreements to provide a pre-determined amount of future services.

(5) Application of the Significance Tests When the Financial Year Ends are Non-Coterminous - Subsection 8.3(2) of the Instrument requires the significance of a business acquisition to be determined using the most recent audited financial statements of both the reporting issuer and the acquired business. For the purpose of applying the tests under this subsection, the year-ends of the reporting issuer and the acquired business need not be coterminous. Accordingly, neither the audited financial statements of the reporting issuer nor those of the business should be adjusted for the purposes of applying the significance tests. However, if the acquisition of a business is determined to be significant and pro forma income statements are required by subsection 8.4(3) of the Instrument and, if the business' year-end is more than 93 days before the reporting issuer's year-end, the business' reporting period required under paragraph 8.4(4)(c) of the Instrument should be adjusted to reduce the gap to 93 days or less. Refer to subsection 8.7(3) of this Policy for further guidance.

8.3 Optional Significance Tests - (1) Optional Significance Tests - Decrease in Significance - If an acquisition is determined under subsection 8.3(2) of the Instrument to be significant, a reporting issuer has the option under subsections 8.3(3) and (4) of applying optional significance tests using more recent financial statements than those used for the required significance tests in subsection 8.3(2). The optional significance tests under subsections 8.3(3) and (4) have been included to recognize the possible growth of a reporting issuer between the date of its most recently completed year-end and the date of filing a business acquisition report and the corresponding potential decline in significance of the acquisition to the reporting issuer.

(2) Availability of the Optional Significance Tests - The optional significance tests permitted under subsections 8.3(4) and (6) of the Instrument are available to all reporting issuers. However, depending on how or when a reporting issuer integrates the acquired business into its existing operations and the nature of post-acquisition financial records it maintains for the acquired business, it may not be possible for a reporting issuer to apply the optional significance test under subsection 8.3(6).

(3) Optional Investment Test - For the purpose of applying the optional investment test under paragraph 8.3(4)(b) of the Instrument, the reporting issuer's investments in and advances to the business should be as at the date of the acquisition and not as at the date of the reporting issuer's financial statements used to determine its consolidated assets for the optional investment test.

(4) Optional Income Test based on Pro Forma Information - A reporting issuer may apply the optional income test in subsection 8.3(11.1) of the Instrument based on more recent pro forma consolidated income from continuing operations. By permitting reporting issuers to base the optional income test on pro forma consolidated income from continuing operations, this test recognizes the possible growth of a reporting issuer as a result of acquisitions completed between its most recently completed year end and the date of filing a business acquisition report and the corresponding potential decline in significance of the acquisition to the

reporting issuer.

8.4 Financial Statements of Related Businesses - Subsection 8.4(8) of the Instrument requires that if a reporting issuer includes in its business acquisition report financial statements for more than one related business, separate financial statements must be presented for each business except for the periods during which the businesses were under common control or management, in which case the reporting issuer may present the financial statements on a combined basis. Although one or more of the related businesses may be insignificant relative to the others, separate financial statements of each business for the same number of periods required must be presented. Relief from the requirement to include financial statements of the least significant related business or businesses may be granted depending on the facts and circumstances.

8.5 Application of the Significance Tests for Step-By-Step Acquisitions - Subsection 8.3(11) of the Instrument explains how the significance test should be applied when the reporting issuer increases its investment in a business by way of a step-by-step purchase as described in the Handbook. If the reporting issuer acquired an interest in the business in a previous year and that interest is reflected in the most recent audited financial statements of the reporting issuer filed, then the issuer should determine the significance of only the incremental investment in the business which is not reflected in the reporting issuer's most recent audited financial statements filed.

8.6 Preparation of Divisional and Carve-out Financial Statements - (1) Interpretations - In this section of this Policy, unless otherwise stated,

(a) a reference to "a business" includes a division or some lesser component of another business acquired by a reporting issuer that constitutes a significant acquisition; and

(b) the term "parent" refers to the vendor from whom the reporting issuer purchased a business.

(2) Acquisition of a Division - As discussed in subsection 8.1(4) of this Policy, the acquisition of a division of a business and in certain circumstances, a lesser component of a person or company, may constitute an acquisition of a business for purposes of the Instrument, whether or not the subject of the acquisition previously prepared financial statements. To determine the significance of the acquisition and comply with the requirements for financial statements in a business acquisition report under Part 8 of the Instrument, financial statements for the business must be prepared. This section provides guidance on preparing these financial statements.

(3) Divisional and Carve-Out Financial Statements - The terms "divisional" and "carve-out" financial statements are often used interchangeably although a distinction is possible. Some companies maintain separate financial records and financial statements for a business activity or unit that is operated as a division. Financial statements prepared from these financial records are often referred to as "divisional" financial statements. In other circumstances, no separate financial records for a business activity are maintained; they are simply consolidated with the parent's records. In these cases, if the parent's financial records are sufficiently detailed, it is possible to extract or "carve-out" the information specific to the business activity in order to prepare separate financial statements of that business. Financial statements prepared in this manner are commonly referred to as "carve-out" financial statements. The guidance in this section applies to the preparation of both divisional and carve-out financial statements unless otherwise stated.

(4) Preparation of Divisional and Carve-Out Financial Statements -

(a) When complete financial records of the business acquired have been maintained, those records should be used for preparing and auditing the financial statements of the business. For the purposes of this section, it is presumed that the parent maintains separate financial records for its divisions.

(b) When complete financial records of the business acquired do not exist, carve-out financial statements should generally be prepared in accordance with the following guidelines:

(i) Allocation of Assets and Liabilities - A balance sheet should include all assets and liabilities directly attributable to the business.

(ii) Allocation of Revenues and Expenses - Income statements should include all revenues and expenses directly attributable to the business. Some fundamental expenditures may be shared by the business and its parent in which case the parent's management must determine a reasonable basis for allocating a share of these common expenses to the business. Examples of such common expenses include salaries, rent, depreciation, professional fees, general and administration.

(iii) Calculation of Income and Capital Taxes - Income and capital taxes should be calculated as if the entity had been a separate legal entity and filed a separate tax return for the period presented.

(iv) Disclosure of Basis of Preparation - The financial statements should include a note describing the basis of preparation. If expenses have been allocated as discussed in subparagraph (b)(ii), the financial statements should include a note describing the method of allocation for each significant line item, at a minimum.

(5) Statements of Assets Acquired, Liabilities Assumed and Statements of Operations - When it is impracticable to prepare carve-out financial statements of a business, a reporting issuer may be required to include in its business acquisition report an audited statement of assets acquired and liabilities assumed and a statement of operations of the business. The statement of operations should exclude only those indirect operating costs not directly attributable to the business, such as corporate overhead. If indirect operating costs were previously allocated to the business and there is a reasonable basis of allocation, they should not be excluded.

8.7 Preparation of Pro Forma Financial Statements Giving Effect to Significant Acquisitions - (1) Objective and Basis of Preparation - The objective of pro forma statements is to illustrate the impact of a transaction on a reporting issuer's financial position and results of operations by adjusting the historical financial statements of the reporting issuer to give effect to the transaction. Accordingly, the pro forma financial statements should be prepared on the basis of the reporting issuer's financial statements as already filed. No adjustment should be made to eliminate extraordinary items or discontinued operations.

(2) Pro Forma Balance Sheet and Income Statements - Subsection 8.4(3) of the Instrument does not require a pro forma balance sheet to be prepared to give effect to significant acquisitions that are reflected in the reporting issuer's most recent annual or interim balance sheet filed under the Instrument.

(3) Non-coterminous Year-ends - Where the financial year-end of a business differs from the reporting issuer's year-end by more than 93 days, paragraph 8.4(4)(c) requires an income statement for the business to be constructed for a period of 12 consecutive months. For example, if the constructed reporting period is 12 months and ends on June 30, the 12 months should commence on July 1 of the immediately preceding year; it should not begin on March 1st of the immediately preceding year with three of the following 15 months omitted, such as the period from October 1 to December 31, since this would not be a consecutive 12 month period.

(4) Effective Date of Adjustments - For the pro forma income statements included in a business acquisition report, the acquisition and the adjustments should be computed as if the acquisition had occurred at the beginning of the reporting issuer's most recently completed financial year and carried through the most recent interim period presented, if any. However, one exception to the preceding is that adjustments related to the

allocation of the purchase price, including the amortization of fair value increments and intangibles, should be based on the purchase price allocation arising from giving effect to the acquisition as if it occurred on the date of the reporting issuer's most recent balance sheet filed.

(5) Acceptable Adjustments - Pro forma adjustments should be limited to those that are directly attributable to the specific acquisition transaction for which there are firm commitments and for which the complete financial effects are objectively determinable.

(6) Multiple Acquisitions - If a reporting issuer has completed multiple acquisitions during the current financial year, then, under subsection 8.4(5) of the Instrument, the pro forma financial statements must give effect to each acquisition. The pro forma adjustments may be grouped by line item on the face of the pro forma financial statements provided the details for each transaction are disclosed in the notes.

(7) Pro Forma Financial Statements Based on Earlier Interim Financial Statements - The pro forma financial statements are prepared on the basis of the financial statements included in the business acquisition report. As a result, if the reporting issuer relies on subsection 8.4(4) of the Instrument to include financial statements for an earlier interim period of the acquired business than would otherwise be required under subsection (3), the issuer uses its comparable interim period to prepare the pro forma statements.

8.7.1 Financial Year End Changed - If the transition year of the acquired business is less than 9 months, the issuer may be required to include financial statements for the transition year of the acquired business in addition to financial statements for the two financial years required by subsection 8.4(1) of the Instrument. The transition year may or may not be audited, but at minimum, the most recently completed financial year must be audited in accordance with subsection 8.4(2).

8.8 Relief from the Requirement to Audit Operating Statements of an Oil and Gas Property - The securities regulatory authority or regulator may exempt a reporting issuer from the requirement to audit the operating statements referred to in section 8.10 of the Instrument if, during the 12 months preceding the date of the acquisition, the average daily production of the property is less than 20 percent of the total average daily production of the vendor for the same or similar periods, and

(a) the reporting issuer provides written submissions prior to the deadline for filing the business acquisition report which establishes to the satisfaction of the appropriate regulator, that despite reasonable efforts during the purchase negotiations, the reporting issuer was prohibited from including in the purchase agreement the rights to obtain an audited operating statement of the property;

(b) the purchase agreement includes representations and warranties by the vendor that the amounts presented in the operating statement agree to the vendor's books and records; and

(c) the reporting issuer discloses in the business acquisition report its inability to obtain an audited operating statement, the reasons therefor, the fact that the representations and warranties referred to in paragraph (b) have been obtained, and a statement that the results presented in the operating statement may have been materially different if the statement had been audited.

For the purpose of determining average daily production when production includes both oil and natural gas, production may be expressed in barrels of oil equivalent using the conversion ratio of 6000 cubic feet of gas to one barrel of oil.

8.9 Exemptions From Requirement for Financial Statements in a Business Acquisition Report - (1) Exemptions - We are of the view that relief from the financial statement requirements of Part 8 of the Instrument should be granted only in unusual circumstances and generally not related solely to cost or the

time involved in preparing and auditing the financial statements. Reporting issuers seeking relief from the financial statement or audit requirements of Part 8 must apply for the relief before the filing deadline for the business acquisition report and before the closing date of the transaction, if applicable. Reporting issuers are reminded that many securities regulatory authorities and regulators do not have the power to grant retroactive relief.

(2) Conditions to Exemptions - If relief is granted from the requirements of Part 8 of the Instrument to include audited financial statements of an acquired business or related businesses, conditions will likely be imposed, such as a requirement to include audited divisional or partial income statements or divisional statements of cash flow, or an audited statement of net operating income for a business.

(3) Exemption from Comparatives if Financial Statements Not Previously Prepared - Section 8.9 of the Instrument provides that a reporting issuer does not have to provide comparative financial information for an acquired business in a business acquisition report if it complies with specific requirements. This exemption may, for example, apply to an acquired business that was, before the acquisition, a private entity and that the reporting issuer is unable to prepare the comparative financial information for because it is impracticable to do so.

(4) Relief may be granted from the requirement to include certain financial statements of an acquired business or related businesses in a business acquisition report in some situations that may include the following:

(a) the business's historical accounting records have been destroyed and cannot be reconstructed. In this case, as a condition of granting the exemption, the reporting issuer may be requested by the securities regulatory authority or regulator to

(i) represent in writing to the securities regulatory authority or regulator, no later than the time the business acquisition report is required to be filed, that the reporting issuer made every reasonable effort to obtain copies of, or reconstruct the historical accounting records necessary to prepare and audit the financial statements, but such efforts were unsuccessful; and

(ii) disclose in the business acquisition report the fact that the historical accounting records have been destroyed and cannot be reconstructed; or

(b) the business has recently emerged from bankruptcy and current management of the business and the reporting issuer is denied access to the historical accounting records necessary to audit the financial statements. In this case, as a condition of granting the exemption, the reporting issuer may be requested by the securities regulatory authority or regulator to

(i) represent in writing to the securities regulatory authority or regulator, no later than the time the business acquisition report is required to be filed that the reporting issuer has made every reasonable effort to obtain access to, or copies of, the historical accounting records necessary to prepare and audit the financial statements but that such efforts were unsuccessful; and

(ii) disclose in the business acquisition report the fact that the business has recently emerged from bankruptcy and current management of the business and the reporting issuer are denied access to the historical accounting records;

(iii) [Repealed]

8.10 Audits and Auditor Review of Financial Statements of an Acquired Business - (1) Unaudited Comparatives in Annual Financial Statements of an Acquired Business - Subsection 8.4(1) requires a

reporting issuer to include comparative financial information of the business in the business acquisition report. This comparative financial information may be unaudited.

(2) Auditor Review of Interim Financial Statements of an Acquired Business - An issuer does not have to engage an auditor to review the interim financial statements of an acquired business included in a business acquisition report. However, if the issuer later incorporates the business acquisition report into a prospectus, the interim financial statements will have to be reviewed in accordance with the requirements relating to financial statements included in a prospectus.

## **Part 9 - Proxy Solicitation and Information Circulars**

9.1 Beneficial Owners of Securities - Reporting issuers are reminded that NI 54-101 prescribes certain procedures relating to the delivery of materials, including forms of proxy, to beneficial owners of securities and related matters. It also prescribes certain disclosure that must be included in the proxy-related materials sent to beneficial owners.

9.2 Prospectus-level Disclosure in Certain Information Circulars - Section 14.2 of Form 51-102F5 *Information Circular* requires an issuer to provide prospectus-level disclosure about certain entities if securityholder approval is required in respect of a significant acquisition under which securities of the acquired business are being exchanged for the issuer's securities or in respect of a restructuring transaction under which securities are to be changed, exchanged, issued or distributed.

Section 14.2 provides that the disclosure must be the disclosure (including financial statements) prescribed by the form of prospectus that the entity would be eligible to use immediately prior to the sending and filing of the information circular in respect of the significant acquisition or restructuring transaction, for a distribution of securities in the jurisdiction.

For example, if disclosure was required in an information circular of Company A for both Company A (an issuer that was only eligible to file a long form prospectus) and Company B (an issuer that was eligible to file a short form prospectus), the disclosure for Company A would be that required by the long form prospectus rules and the disclosure for Company B would be that required by the short form prospectus rules. Any information incorporated by reference in the information circular of Company A would have to comply with paragraph (c) of Part 1 of Form 51-102F5 and be filed under Company A's profile on SEDAR.

## **Part 10 - Electronic Delivery of Documents**

10.1 Electronic Delivery of Documents - Any documents required to be sent under the Instrument may be sent by electronic delivery, as long as such delivery is made in compliance with Québec Notice 11-201 *Relating to the Delivery of Documents by Electronic Means*, in Québec, and National Policy 11-201 *Delivery of Documents by Electronic Means*, in the rest of Canada.

## **Part 11 - Additional Disclosure Requirements**

11.1 Additional Filing Requirements - Paragraph 11.1(1)(b) of the Instrument requires a document to be filed only if it contains information that has not been included in disclosure already filed by the reporting issuer. For example, if a reporting issuer has filed a material change report under the Instrument and the Form 8-K filed by the reporting issuer with the SEC discloses the same information, whether in the same or a different format, there is no requirement to file the Form 8-K under the Instrument.

11.2 Re-filing Documents or Re-stating Financial Information - If a reporting issuer decides to re-file a document, or re-state financial information for comparative periods in financial statements for reasons other

than retroactive application of a change in an accounting standard or policy or a new accounting standard, and the re-filed or re-stated information is likely to differ materially from the information originally filed, the issuer should disclose in the news release required by section 11.5 of the Instrument when it makes that decision

(a) the facts underlying the changes,

(b) the general impact of the changes on previously filed information, and

(c) the steps the issuer would take before filing an amended document, or filing re-stated financial information, if the issuer is not filing amended information immediately.

## **Part 12 - Filing of Certain Documents**

12.1 Statutory or Regulatory Instruments - Paragraph 12.1(1)(a) of the Instrument requires reporting issuers to file copies of their articles of incorporation, amalgamation, continuation or any other constating or establishing documents, unless the document is a statutory or regulatory instrument. This is a very narrow exception. For example, it would apply to Schedule I or Schedule II banks under the Bank Act, whose charter is the Bank Act. It would not apply when only the form of the constating document is prescribed under statute or regulation, such as articles under the Canada Business Corporations Act.

12.2 Contracts that Affect the Rights or Obligations of Securityholders - Paragraph 12.1(1)(e) of the Instrument requires reporting issuers to file contracts that can reasonably be regarded as materially affecting the rights of its securityholders generally. A warrant indenture is one example of this type of contract. We would expect that contracts entered into in the ordinary course of business would not usually affect the rights of securityholders generally, and so would not have to be filed.

12.3 Filing of Other Material Contracts - We expect that the contracts required under section 12.2 of the Instrument to be filed by a reporting issuer will generally be the same contracts the reporting issuer is required to provide disclosure of under section 15.1 of Form 51-102F2. The exemption in subsection 12.2(2) of the Instrument does not affect the issuer's obligation in section 15.1 of Form 51-102F2 to disclose the particulars of the material contracts.

## **Part 13 - Exemptions**

13.1 Prior Exemptions and Waivers - Section 13.2 of the Instrument essentially allows a reporting issuer, in certain circumstances, to continue to rely upon an exemption or waiver from continuous disclosure obligations obtained prior to the Instrument coming into force if the exemption or waiver relates to a substantially similar provision in the Instrument and the reporting issuer provides written notice to the securities regulatory authority or regulator of its reliance on such exemption or waiver. Upon receipt of such notice, the securities regulatory authority or regulator, as the case may be, will review it to determine if the provision of the Instrument referred to in the notice is substantially similar to the provision from which the prior exemption or waiver was granted. The written notice should be sent to each jurisdiction where the prior exemption or waiver is relied upon. Contact addresses for these notices are:

## Appendix B - [Repealed]

### Form 51-102F1 - Management's Discussion & Analysis

#### Part 1 - General Provisions

##### *(a) - What is MD&A?*

MD&A is a narrative explanation, through the eyes of management, of how your company performed during the period covered by the financial statements, and of your company's financial condition and future prospects. MD&A complements and supplements your financial statements, but does not form part of your financial statements.

Your objective when preparing the MD&A should be to improve your company's overall financial disclosure by giving a balanced discussion of your company's results of operations and financial condition including, without limitation, such considerations as liquidity and capital resources - openly reporting bad news as well as good news. Your MD&A should

- help current and prospective investors understand what the financial statements show and do not show;
- discuss material information that may not be fully reflected in the financial statements, such as contingent liabilities, defaults under debt, off-balance sheet financing arrangements, or other contractual obligations;
- discuss important trends and risks that have affected the financial statements, and trends and risks that are reasonably likely to affect them in the future; and
- provide information about the quality, and potential variability, of your company's earnings and cash flow, to assist investors in determining if past performance is indicative of future performance.

##### *(b) - Date of Information*

In preparing the MD&A, you must take into account information available up to the date of the MD&A. If the date of the MD&A is not the date it is filed, you must ensure the disclosure in the MD&A is current so that it will not be misleading when it is filed.

##### *(c) - Use of "Company"*

Wherever this Form uses the word "company", the term includes other types of business organizations such as partnerships, trusts and other unincorporated business entities.

##### *(d) - Explain Your Analysis*

Explain the nature of, and reasons for, changes in your company's performance. Do not simply disclose the amount of change in a financial statement item from period to period. Avoid using boilerplate language. Your discussion should assist the reader to understand trends, events, transactions and expenditures.

##### *(e) - Focus on Material Information*

Focus your MD&A on material information. You do not need to disclose information that is not material. Exercise your judgment when determining whether information is material.

***(f) - What is Material?***

Would a reasonable investor's decision whether or not to buy, sell or hold securities in your company likely be influenced or changed if the information in question was omitted or misstated? If so, the information is likely material. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.

***(g) - Venture Issuers Without Significant Revenues***

If your company is a venture issuer without significant revenues from operations, focus your discussion and analysis of results of operations on expenditures and progress towards achieving your business objectives and milestones.

***(h) - Reverse Takeover Transactions***

When an acquisition is accounted for as a reverse takeover, the MD&A should be based on the reverse takeover acquirer's financial statements.

***(i) - Foreign Accounting Principles***

If your company's primary financial statements have been prepared using accounting principles other than Canadian GAAP and a reconciliation is provided, your MD&A must focus on the primary financial statements.

***(j) - Resource Issuers***

If your company has mineral projects, your disclosure must comply with National Instrument 43-101 *Standards of Disclosure for Mineral Projects*, including the requirement that all scientific and technical disclosure be based on a technical report or other information prepared by or under the supervision of a qualified person.

If your company has oil and gas activities, your disclosure must comply with National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities*.

***(k) - Numbering and Headings***

The numbering, headings and ordering of items included in this Form are guidelines only. You do not need to include the headings or numbering or follow the order of items in this Form. Disclosure provided in response to any item need not be repeated elsewhere.

***(l) - Omitting Information***

You do not need to respond to any item in this Form that is inapplicable.

***(m) - Defined Terms***

If a term is used but not defined in this Form, refer to Part 1 of National Instrument 51-102 and to National Instrument 14-101 *Definitions*. If a term is used in this Form and is defined in both the securities statute of the local jurisdiction and in National Instrument 51-102, refer to section 1.4 of Companion Policy 51-102CP.

***(n) - Plain Language***

Write the MD&A so that readers are able to understand it. Refer to the plain language principles listed in section 1.5 of Companion Policy 51-102CP. If you use technical terms, explain them in a clear and concise manner.

***(o) - Available Prior Period Information***

If you have not presented comparative financial information in your financial statements, in your MD&A you must provide prior period information relating to results of operations that is available.

**Part 2 - Content of MD&A**

***Item 1 - Annual MD&A***

***1.1 - Date***

Specify the date of your MD&A. The date of the MD&A must be no earlier than the date of the auditor's report on the financial statements for your company's most recently completed financial year.

***1.2 - Overall Performance***

Provide an analysis of your company's financial condition, results of operations and cash flows. Discuss known trends, demands, commitments, events or uncertainties that are reasonably likely to have an effect on your company's business. Compare your company's performance in the most recently completed financial year to the prior year's performance. Your analysis should address at least the following:

- (a) operating segments that are reportable segments as those terms are used in the Handbook;
- (b) other parts of your business if
  - (i) they have a disproportionate effect on revenues, income or cash needs; or
  - (ii) there are any legal or other restrictions on the flow of funds from one part of your company's business to another;
- (c) industry and economic factors affecting your company's performance;
- (d) why changes have occurred or expected changes have not occurred in your company's financial condition and results of operations; and
- (e) the effect of discontinued operations on current operations.

**Instructions**

*(i) When explaining changes in your company's financial condition and results, include an analysis of the effect on your continuing operations of any acquisition, disposition, write-off, abandonment or other similar transaction.*

*(ii) Financial condition includes your company's financial position reflects the overall health of the company and (as shown on the balance sheet) and other factors that may affect your company's liquidity, capital resources and solvency. A discussion of financial condition should include important trends and risks that have affected the financial statements, and trends and risks that are reasonably likely to affect them in the future.*

*(iii) Include information for a period longer than two financial years if it will help the reader to better understand a trend.*

### *1.3 - Selected Annual Information*

(1) Provide the following financial data derived from your company's financial statements for each of the three most recently completed financial years:

(a) net sales or total revenues;

(b) income or loss before discontinued operations and extraordinary items, in total and on a per-share and diluted per-share basis;

(c) net income or loss, in total and on a per-share and diluted per-share basis;

(d) total assets;

(e) total long-term financial liabilities; and

(f) cash dividends declared per-share for each class of share.

(2) Discuss the factors that have caused period to period variations including discontinued operations, changes in accounting policies, significant acquisitions or dispositions and changes in the direction of your business, and any other information your company believes would enhance an understanding of, and would highlight trends in, financial condition and results of operations.

### **Instruction**

*Indicate the accounting principles that the financial data has been prepared in accordance with, the reporting currency, the measurement currency if different from the reporting currency and, if the underlying financial statements have been reconciled to Canadian GAAP, provide a cross-reference to the reconciliation that is found in the notes to the financial statements.*

### *1.4 - Results of Operations*

#### **Instructions**

*(i) Off-balance sheet arrangements include any contractual arrangement with an entity not reported on a consolidated basis with your company, under which your company has*

- (A) any obligation under certain guarantee contracts;*

- (D) any obligation under a material variable interest held by your company in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to your company, or engages in leasing, hedging or, research and development services with your company.*

*(ii) Contingent liabilities arising out of litigation, arbitration or regulatory actions are not considered to be off-balance sheet arrangements.*

*(iii) Disclosure of off-balance sheet arrangements should cover the most recently completed financial year. However, the discussion should address changes from the previous year where such discussion is necessary to understand the disclosure.*

*(iv) The discussion need not repeat information provided in the notes to the financial statements if the discussion clearly cross-references to specific information in the relevant notes and integrates the substance of the notes into the discussion in a manner that explains the significance of the information not included in the MD&A.*

#### *1.11 - Proposed Transactions*

Discuss the expected effect on financial condition, results of operations and cash flows of any proposed asset or business acquisition or disposition if your company's board of directors, or senior management who believe that confirmation of the decision by the board is probable, have decided to proceed with the transaction. Include the status of any required shareholder or regulatory approvals.

#### **Instruction**

*You do not have to disclose this information if, under section 7.1 of National Instrument 51-102, your company has filed a Form 51-102F3 Material Change Report regarding the transaction on a confidential basis and the report remains confidential.*

#### *1.12 - Critical Accounting Estimates*

(i) If your company is not a venture issuer, provide an analysis of your company's critical accounting estimates. Your analysis should

(a) identify and describe each critical accounting estimate used by your company including

- (i) a description of the accounting estimate;
  - (ii) the methodology used in determining the critical accounting estimate;
  - (iii) the assumptions underlying the accounting estimate that relate to matters highly uncertain at the time the estimate was made;
  - (iv) any known trends, commitments, events or uncertainties that you reasonably believe will materially affect the methodology or the assumptions described; and
  - (v) if applicable, why the accounting estimate is reasonably likely to change from period to period and have a material impact on the financial presentation;
- (b) explain the significance of the accounting estimate to your company's financial condition, changes in financial condition and results of operations and identify the financial statement line items affected by the accounting estimate;
- (c) [Repealed]
- (d) discuss changes made to critical accounting estimates during the past two financial years including the reasons for the change and the quantitative effect on your company's overall financial performance and financial statement line items; and
- (e) identify the segments of your company's business that the accounting estimate affects and discuss the accounting estimate on a segment basis, if your company operates in more than one segment.

### **Instructions**

- (i) *An accounting estimate is a critical accounting estimate only if*
- (A) *it requires your company to make assumptions about matters that are highly uncertain at the time the accounting estimate is made; and*
- (B) *different estimates that your company could have used in the current period, or changes in the accounting estimate that are reasonably likely to occur from period to period, would have a material impact on your company's financial condition, changes in financial condition or results of operations.*
- (ii) *As part of your description of each critical accounting estimate, in addition to qualitative disclosure, you should provide quantitative disclosure when quantitative information is reasonably available and would provide material information for investors. Similarly, in your discussion of assumptions underlying an accounting estimate that relates to matters highly uncertain at the time the estimate was made, you should provide quantitative disclosure when it is reasonably available and it would provide material information for investors. For example, quantitative information may include a sensitivity analysis or disclosure of the upper and lower ends of the range of estimates from which the recorded estimate was selected.*

### *1.13 - Changes in Accounting Policies including Initial Adoption*

Discuss and analyze any changes in your company's accounting policies, including

- (a) for any accounting policies that you have adopted or expect to adopt subsequent to the end of your most

recently completed financial year, including changes you have made or expect to make voluntarily and those due to a change in an accounting standard or a new accounting standard that you do not have to adopt until a future date, you should

(i) describe the new standard, the date you are required to adopt it and, if determined, the date you plan to adopt it;

(iii) discuss the expected effect on your company's financial statements, or if applicable, state that you cannot reasonably estimate the effect; and

(iv) discuss the potential effect on your business, for example technical violations or default of debt covenants or changes in business practices; and

(b) for any accounting policies that you have initially adopted during the most recently completed financial year, you should

(i) describe the events or transactions that gave rise to the initial adoption of an accounting policy;

(ii) describe the accounting principle that has been adopted and the method of applying that principle;

(iii) discuss the effect resulting from the initial adoption of the accounting policy on your company's financial condition, changes in financial condition and results of operations;

(iv) if your company is permitted a choice among acceptable accounting principles,

(A) state that you made a choice among acceptable alternatives;

(B) identify the alternatives;

(C) describe why you made the choice that you did; and

(D) discuss the effect, where material, on your company's financial condition, changes in financial condition and results of operations under the alternatives not chosen; and

(v) if no accounting literature exists that covers the accounting for the events or transactions giving rise to your initial adoption of the accounting policy, explain your decision regarding which accounting principle to use and the method of applying that principle.

### **Instruction**

*You do not have to present the discussion under paragraph 1.13(b) for the initial adoption of accounting policies resulting from the adoption of new accounting standards.*

### *1.14 - Financial Instruments and Other Instruments*

For financial instruments and other instruments,

(a) discuss the nature and extent of your company's use of, including relationships among, the instruments

and the business purposes that they serve;

(d) disclose the financial statement classification and amounts of income, expenses, gains and losses associated with the instrument; and

(e) discuss the significant assumptions made in determining the fair value of financial instruments, the total amount and financial statement classification of the change in fair value of financial instruments recognized in income for the period, and the total amount and financial statement classification of deferred or unrecognized gains and losses on financial instruments.

### **Instructions**

*(i) "Other instruments" are instruments that may be settled by the delivery of non-financial assets. A commodity futures contract is an example of an instrument that may be settled by delivery of non-financial assets.*

*(ii) Your discussion under paragraph 1.14(a) should enhance a reader's understanding of the significance of recognized and unrecognized instruments on your company's financial position, results of operations and cash flows. The information should also assist a reader in assessing the amounts, timing, and certainty of future cash flows associated with those instruments. Also discuss the relationship between liability and equity components of convertible debt instruments.*

*(iii) For purposes of paragraph 1.14(c), if your company is exposed to significant price, credit or liquidity risks, consider providing a sensitivity analysis or tabular information to help readers assess the degree of exposure. For example, an analysis of the effect of a hypothetical change in the prevailing level of interest or currency rates on the fair value of financial instruments and future earnings and cash flows may be useful in describing your company's exposure to price risk.*

*(iv) For purposes of paragraph 1.14(d), disclose and explain the income, expenses, gains and losses from hedging activities separately from other activities.*

### *1.15 - Other MD&A Requirements*

(a) Your MD&A must disclose that additional information relating to your company, including your company's AIF if your company files an AIF, is on SEDAR at [www.sedar.com](http://www.sedar.com).

(b) Your MD&A must also provide the information required in the following sections of National Instrument 51-102, if applicable:

(i) Section 5.3 - Additional Disclosure for Venture Issuers without Significant Revenue;

(ii) Section 5.4 - Disclosure of Outstanding Share Data; and

(iii) Section 5.7 - Additional Disclosure for Reporting Issuers with Significant Equity Investees.

**Instruction**

*Your company may also be required to provide additional disclosure in its MD&A as set out in Form 52-109F1 Certification of Annual Filings and Form 52-109F2 Certification of Interim Filings.*

**Item 2 - Interim MD&A****2.1 - Date**

Specify the date of your interim MD&A.

**2.2 - Interim MD&A**

Interim MD&A must update your company's annual MD&A for all disclosure required by Item 1 except section 1.3. This disclosure must include

(a) a discussion of your analysis of

(i) current quarter and year-to-date results including a comparison of results of operations and cash flows to the corresponding periods in the previous year;

(ii) changes in results of operations and elements of income or loss that are not related to ongoing business operations;

(iii) any seasonal aspects of your company's business that affect its financial condition, results of operations or cash flows; and

(b) a comparison of your company's interim financial condition to your company's financial condition as at the most recently completed financial year-end.

**Instruction**

*(i) If the first MD&A you file in this Form (your first MD&A) is an interim MD&A, you must provide all the disclosure called for in Item 1 in your first MD&A. Base the disclosure, except the disclosure for section 1.3, on your interim financial statements. Since you do not have to update the disclosure required in section 1.3 in your interim MD&A, your first MD&A will provide disclosure under section 1.3 based on your annual financial statements. Your subsequent interim MD&A for that year will update your first interim MD&A.*

*(ii) For the purposes of paragraph 2.2(b), you may assume the reader has access to your annual MD&A or your first MD&A. You do not have to duplicate the discussion and analysis of financial condition in your annual MD&A or your first MD&A. For example, if economic and industry factors are substantially unchanged you may make a statement to this effect.*

*(iii) For the purposes of subparagraph 2.2(a)(i), you should generally give prominence to the current quarter.*

*(iv) In discussing your company's balance sheet conditions or income or cash flow items for an interim period, you do not have to present a summary, in tabular form, of all known contractual obligations contemplated under section 1.6. Instead, you should disclose material changes in the specified contractual obligations during the interim period that are outside the ordinary course of your company's business.*

(v) *Interim MD&A prepared in accordance with Item 2 is not required for your company's fourth quarter as relevant fourth quarter content will be contained in your company's annual MD&A prepared in accordance with Item 1 (see section 1.10).*

(vi) *In your interim MD&A, update the summary of quarterly results in section 1.5 by providing summary information for the eight most recently completed quarters.*

(vii) *Your annual MD&A may not include all the information in Item 1 if you were a venture issuer as at the end of your last financial year. If you ceased to be a venture issuer during your interim period, you do not have to restate the MD&A you previously filed. Instead, provide the disclosure for the additional sections in Item 1 that you were exempt from as a venture issuer in the next interim MD&A you file. Base your disclosure for those sections on your interim financial statements.*

## **Form 51-102F2 - Annual Information Form**

### **Part 1 - General Provisions**

#### ***(a) - What is an AIF?***

An AIF (annual information form) is required to be filed annually by certain companies under Part 6 of National Instrument 51-102. An AIF is a disclosure document intended to provide material information about your company and its business at a point in time in the context of its historical and possible future development. Your AIF describes your company, its operations and prospects, risks and other external factors that impact your company specifically.

This disclosure is supplemented throughout the year by subsequent continuous disclosure filings including news releases, material change reports, business acquisition reports, financial statements and management discussion and analysis.

#### ***(b) - Date of Information***

Unless otherwise specified in this Form, the information in your AIF must be presented as at the last day of your company's most recently completed financial year. If necessary, you must update the information in the AIF so it is not misleading when it is filed. For information presented as at any date other than the last day of your company's most recently completed financial year, specify the relevant date in the disclosure.

#### ***(c) - Use of "Company"***

Wherever this Form uses the word "company", the term includes other types of business organizations such as partnerships, trusts and other unincorporated business entities.

All references to "your company" in Items 4, 5, 6, 12, 13, 15 and 16 of this Form apply collectively to your company, your company's subsidiaries, joint ventures to which your company is a party and entities in which your company has an investment accounted for by the equity method.

#### ***(d) - Focus on Material Information]***

Focus your AIF on material information. You do not need to disclose information that is not material. Exercise your judgment when determining whether information is material. However, you must disclose all

corporate and individual cease trade orders, bankruptcies, penalties and sanctions in accordance with Item 10 and section 12.2 of this Form.

***(e) - What is Material?***

Would a reasonable investor's decision whether or not to buy, sell or hold securities in your company likely be influenced or changed if the information in question was omitted or misstated? If so, the information is likely material. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.

***(f) - Incorporating Information by Reference***

You may incorporate information required to be included in your AIF by reference to another document, other than a previous AIF. Clearly identify the referenced document or any excerpt of it that you incorporate into your AIF. Unless you have already filed the referenced document or excerpt, including any documents incorporated by reference into the document or excerpt, under your SEDAR profile, you must file it with your AIF. You must also disclose that the document is on SEDAR at [www.sedar.com](http://www.sedar.com).

***(g) - Defined Terms***

If a term is used but not defined in this Form, refer to Part 1 of National Instrument 51-102 and to National Instrument 14-101 Definitions. If a term is used in this Form and is defined in both the securities statute of a local jurisdiction and in National Instrument 51-102, refer to section 1.4 of Companion Policy 51-102CP.

***(h) - Plain Language***

Write the AIF so that readers are able to understand it. Refer to the plain language principles listed in section 1.5 of Companion Policy 51-102CP. If you use technical terms, explain them in a clear and concise manner.

***(i) - Special Purpose Vehicles***

If your company is a special purpose vehicle, you may have to modify the disclosure items in this Form to reflect the special purpose nature of your company's business.

***(j) - Numbering and Headings***

The numbering, headings and ordering of items included in this Form are guidelines only. You do not need to include the headings or numbering or follow the order of items in this Form. Disclosure provided in response to any item need not be repeated elsewhere.

***(k) - Omitting Information***

You do not need to respond to any item in this Form that is inapplicable and you may omit negative answers.

**Part 2 - Content of AIF**

***Item 1 - Cover Page***

***1.1 - Date***

Specify the date of your AIF. The date must be no earlier than the date of the auditor's report on the financial statements for your company's most recently completed financial year.

*(II) the transaction is in the ordinary course of business of the company or its subsidiaries, and*

*(III) the amount of the transaction or series of transactions is less than 10 per cent of the total sales or purchases, as the case may be, of the company and its subsidiaries for the most recently completed financial year.*

*(vi) Provide information for transactions not excluded above which involve remuneration, directly or indirectly, to any of the specified persons or companies for services in any capacity unless the interest of the person arises solely from the beneficial ownership, direct or indirect, of less than 10 per cent of any class of voting securities of another company furnishing the services to the company or its subsidiaries.*

**Item 12 - Appointment of Auditor**

Name the auditor of the company. If the auditor was first appointed within the last five years, state the date when the auditor was first appointed.

If action is to be taken to replace an auditor, provide the information required under section 4.11 of National Instrument 51-102.

***Item 14 - Particulars of Matters to be Acted Upon***

*14.1* If action is to be taken on any matter to be submitted to the meeting of securityholders other than the

approval of financial statements, briefly describe the substance of the matter, or related groups of matters, except to the extent described under the foregoing items, in sufficient detail to enable reasonable securityholders to form a reasoned judgment concerning the matter. Without limiting the generality of the foregoing, such matters include alterations of share capital, charter amendments, property acquisitions or dispositions, reverse takeovers, amalgamations, mergers, arrangements or reorganizations and other similar transactions.

*14.2* If the action to be taken is in respect of a significant acquisition as determined under Part 8 of National Instrument 51-102 under which securities of the acquired business are being exchanged for the company's securities, or in respect of a restructuring transaction under which securities are to be changed, exchanged, issued or distributed, include disclosure for

- (a) the company, if the company has not filed all documents required under National Instrument 51-102,
- (b) the business being acquired, if the matter is a significant acquisition,
- (c) each entity, other than the company, whose securities are being changed, exchanged, issued or distributed, if
  - (i) the matter is a restructuring transaction, and
  - (ii) the company's current securityholders will have an interest in that entity after the restructuring transaction is completed, and
- (d) each entity that would result from the significant acquisition or restructuring transaction, if the company's securityholders will have an interest in that entity after the significant acquisition or restructuring transaction is completed.

The disclosure must be the disclosure (including financial statements) prescribed under securities legislation and described in the form of prospectus that the entity would be eligible to use immediately prior to the sending and filing of the information circular in respect of the significant acquisition or restructuring transaction, for a distribution of securities in the jurisdiction.

*14.3* If the matter is one that is not required to be submitted to a vote of securityholders, state the reasons for submitting it to securityholders and state what action management intends to take in the event of a negative vote by the securityholders.

*14.4* Section 14.2 does not apply to an information circular that is sent to holders of voting securities of a reporting issuer soliciting proxies otherwise than on behalf of management of the reporting issuer (a "dissident circular"), unless the sender of the dissident circular is proposing a significant acquisition or restructuring transaction involving the reporting issuer and the sender, under which securities of the sender, or an affiliate of the sender, are to be distributed or transferred to securityholders of the reporting issuer. However, a sender of a dissident circular shall include in the dissident circular the disclosure required by section 14.2 if the sender of the dissident circular is proposing a significant acquisition or restructuring transaction under which securities of the sender or securities of an affiliate of the sender are to be changed, exchanged, issued or distributed.

*14.5* A company satisfies section 14.2 if it prepares an information circular in connection with a Qualifying Transaction, for a company that is a CPC, or in connection with a Reverse Take-Over (as Qualifying Transaction, CPC and Reverse Take-Over are defined in the TSX Venture Exchange policies) provided that the company complies with the policies and requirements of the TSX Venture Exchange in respect of that

Qualifying Transaction or Reverse Take-Over.

*Instruction*

*For the purposes of section 14.2, a securityholder will not be considered to have an interest in an entity after an acquisition or restructuring transaction is completed if the securityholder will only hold a redeemable security that is immediately redeemed for cash.*

***Item 15 - Restricted Securities***

*15.1* If the action to be taken involves a transaction that would have the effect of converting or subdividing, in whole or in part, existing securities into restricted securities, or creating new restricted securities, the information circular must also include, as part of the minimum disclosure required, a detailed description of:

(a) the voting rights attached to the restricted securities that are the subject of the transaction or that will result from the transaction either directly or following a conversion, exchange or exercise, and the voting rights, if any, attached to the securities of any other class of securities of the company that are the same or greater on a per security basis than those attached to the restricted securities that are the subject of the transaction or that will result from the transaction either directly or following a conversion, exchange or exercise;

(b) the percentage of the aggregate voting rights attached to the company's securities that are represented by the class of restricted securities;

(c) any significant provisions under applicable corporate and securities law, in particular whether the restricted securities may or may not be tendered in any takeover bid for securities of the reporting issuer having voting rights superior to those attached to the restricted securities, that do not apply to the holders of the restricted securities that are the subject of the transaction or that will result from the transaction either directly or following a conversion, exchange or exercise, but do apply to the holders of another class of equity securities, and the extent of any rights provided in the constating documents or otherwise for the protection of holders of the restricted securities; and

(d) any rights under applicable corporate law, in the constating documents or otherwise, of holders of restricted securities that are the subject of the transaction either directly or following a conversion, exchange or exercise, to attend, in person or by proxy, meetings of holders of equity securities of the company and to speak at the meetings to the same extent that holders of equity securities are entitled.

*15.2* If holders of restricted securities do not have all of the rights referred to in section 15.1, the detailed description referred to in section 15.1 must include, in bold-face type, a statement of the rights the holders do not have.

***Item 16 - Additional Information***

*16.1* Disclose that additional information relating to the company is on SEDAR at [www.sedar.com](http://www.sedar.com). Disclose how securityholders may contact the company to request copies of the company's financial statements and MD&A.

*16.2* Include a statement that financial information is provided in the company's comparative financial statements and MD&A for its most recently completed financial year.

## **Item 1 - General Provisions**

*1.1* The purpose of this Form is to provide disclosure of all compensation, whatever the source, earned by certain executive officers and directors in connection with office or employment by your company or a subsidiary of your company. Wherever this Form uses the word "company", the term includes other types of business organizations such as partnerships, trusts and other unincorporated business entities. The particular requirements in this Form should be interpreted with regard to this purpose, the definition of "executive officer" in the Instrument, and in a manner that gives priority to substance over form.

*1.2* You should prepare the Form in the prescribed format. You may omit a table or column of a table if it is not applicable.

*1.3* Definitions. For the purposes of this Form

"Chief Executive Officer" or "CEO" means each individual who served as chief executive officer of your company or acted in a similar capacity during the most recently completed financial year;

"Chief Financial Officer" or "CFO" means each individual who served as chief financial officer of your company or acted in a similar capacity during the most recently completed financial year;

"long-term incentive plan" or "LTIP" means a plan providing compensation intended to motivate performance over a period greater than one financial year. LTIPs do not include option or SAR plans or plans for compensation through shares or units that are subject to restrictions on resale;

"measurement period" means the period beginning at the "measurement point" which is established by the market close on the last trading day before the beginning of your company's fifth preceding financial year, through and including the end of your company's most recently completed financial year. If the class or series of securities has been publicly traded for a shorter period of time, the period covered by the comparison may correspond to that time period;

"Named Executive Officers" or "NEOs" means the following individuals:

(a) each CEO;

(b) each CFO;

(c) each of your company's three most highly compensated executive officers, other than the CEO and CFO, who were serving as executive officers at the end of the most recently completed financial year and whose total salary and bonus exceeds \$150,000; and

(d) any additional individuals for whom disclosure would have been provided under (c) except that the individual was not serving as an officer of your company at the end of the most recently completed financial year-end;

"normal retirement age" means normal retirement age as defined in a pension plan or, if not defined, the earliest time at which a plan participant may retire without any benefit reduction due to age;

"options" includes all options, share purchase warrants and rights granted by a company or its subsidiaries as compensation for employment services or office. An extension of an option or replacement grant is a grant of a new option. Also, options includes any grants made to a NEO by a third party or a non-subsidiary affiliate of your company in respect of services to your company or a subsidiary of your company;

"plan" includes, but is not limited to, any arrangement, whether or not set forth in any formal document and whether or not applicable to only one individual, under which cash, securities, options, SARs, phantom stock, warrants, convertible securities, shares or units that are subject to restrictions on resale, performance units and performance shares, or similar instruments may be received or purchased. It excludes the Canada Pension Plan, similar government plans and group life, health, hospitalization, medical reimbursement and relocation plans that are available generally to all salaried employees (for example, does not discriminate in scope, terms or operation in favour of executive officers or directors);

"replacement grant" means the grant of an option or SAR reasonably related to any prior or potential cancellation of an option or SAR;

"repricing" of an option or SAR means the adjustment or amendment of the exercise or base price of a previously awarded option or SAR. Any repricing occurring through the operation of a formula or mechanism in, or applicable to, the previously awarded option or SAR equally affecting all holders of the class of securities underlying the option or SAR is excluded; and

"stock appreciation right" or "SAR" means a right, granted by a company or any of its subsidiaries as compensation for employment services or office to receive cash or an issue or transfer of securities based wholly or in part on changes in the trading price of publicly traded securities.

If a term is used but not defined in this Form, refer to Part 1 of National Instrument 51-102 and to National Instrument 14-101 *Definitions*. If a term is used in this Form and is defined in both the securities statute of a local jurisdiction and in National Instrument 51-102, refer to section 1.4 of Companion Policy 51-102CP.

*1.4* In preparing this Form:

(a) *Determination of Most Highly Compensated Executive Officers*. The determination of your company's most highly compensated executive officers is based on the total annual salary and bonus of each executive officer during your company's most recently completed financial year.

(b) *Change in Status of a NEO During the Financial Year*. If the NEO served in that capacity during any part of a financial year for which disclosure is required, disclose all of his or her compensation for the full financial year.

(c) *Exclusion Due to Unusual Compensation or Compensation for Foreign Assignment*. In limited circumstances, you can exclude disclosure of an individual, other than a CEO or CFO, who is one of the three most highly compensated executive officers. Factors to consider in determining to exclude an individual are

(i) a payment or accrual of an unusually large amount of cash compensation (such as bonus or commission) that is not part of a recurring arrangement and is unlikely to continue; or

(ii) the payment of additional amounts of cash compensation for increased living expenses due to an assignment outside of Canada.

(d) *All Compensation Covered*. This Form requires disclosure of all plan and non-plan compensation for each NEO, and each director in accordance with Item 11. Except as expressly provided, no amount, benefit or right reported as compensation for a financial year need be reported as compensation for any subsequent fiscal year.

(e) *Sources of Compensation*. Compensation to officers and directors must include compensation from the

company and its subsidiaries. Also, the company must include in the appropriate compensation category any compensation paid under an understanding, arrangement or agreement existing among

(i) any of

(A) the company,

(B) its subsidiaries, or

(C) an officer or director of the company or its subsidiary, and

(ii) another entity,

for the purpose of the entity compensating the officer or director for employment services or office.

If the company's executive management is employed or retained by an external management company (including a subsidiary, affiliate or associate) and the company has entered into an understanding, arrangement or agreement of any kind for the provision of executive management services by the external management company to the company directly or indirectly, the company must disclose any compensation payable

(iii) directly by the company to any persons employed or retained by the external management company who are acting as executive officers and directors of the company; and

(iv) by the external management company to such persons that is attributable to services rendered to the company directly or indirectly.

(f) *Compensation Furnished to Associates.* Any compensation to an associate, under an understanding or agreement among any of the company, its subsidiaries or another entity and an officer or director of the company or its subsidiary for the purpose of the company, its subsidiary or the other entity compensating the officer or director for employment services or office, must be included in the appropriate compensation category.

(g) *Allocation of Compensation* - If the company's executive management is provided through an external management company, and the external management company has other clients in addition to the company, the company must disclose either,

(i) the portion of the compensation paid to the officer or director by the external management company that can be attributed to services rendered to the company; or

(ii) the entire compensation paid by the external management company to the officer or director.

If the company does allocate the compensation paid to the officer or director, it should disclose the basis for the allocation.

1. Complete this table for each of the NEOs for your company's three most recently completed financial years. Note the following:

- Columns (c) and (d) - include any cash or non-cash base salary and bonus earned by the NEO. For noncash compensation, disclose the fair market value of the compensation at the time the compensation is earned. Amounts deferred at the election of a NEO must be included in the financial year in which earned. If the amount of salary and/or bonus earned in a given financial year is not calculable, that fact must be disclosed in a footnote and the amount must be disclosed in the subsequent financial year in the column for the financial year in which earned.

- Any salary or bonus earned in a covered year that was foregone, at the election of a NEO, under a program of your company under which non-

cash compensation may be received in lieu of a portion of annual compensation, need not be included in the salary or bonus columns. Instead, you may disclose the non-cash compensation in the appropriate column for that year (i.e. columns (f), (g) and (i)). If the election was made under a LTIP and therefore is not reportable at the time of grant in this table, a footnote must be added to the salary or bonus column disclosing this fact and referring to the table in section 3.1.

- Commissions can be treated as salary or bonus. You can add a footnote to the table to indicate that such amounts are paid under a commission arrangement and disclose details of the arrangement in the compensation committee report (Item 9).

- Column (e) - disclose all other compensation of the NEO that is not properly categorized as salary or bonus, including

(a) Perquisites and other personal benefits, securities or property, unless the aggregate amount of such compensation is less than \$50,000 and 10 per cent of the total of the annual salary and bonus of the NEO for the financial year. Generally, a perquisite is the cost or value of a personal benefit provided to the NEO that is not available to all employees. Examples of things that could be perquisites are

- Car allowance
- Car lease
- Cars
- Corporate aircraft
- Club membership
- Financial assistance to provide education to children of the executives
- Financial counselling
- Parking
- Tax return preparation

The following are not considered perquisites and thus need not be reported:

- Contributions to professional dues
- CPP or Québec Pension Plan
- Dental
- Employee relocation plans available to all employees
- Group life benefits available to all employees
- Long-term benefits available to all employees

- Medical

Each perquisite or other personal benefit exceeding 25 per cent of the total perquisites and other personal benefits reported for a NEO must be identified by type and amount in a footnote to column (e). Perquisites and other personal benefits must be valued on the basis of the aggregate incremental cost to your company and its subsidiaries;

(b) The above-market portion of all interest, dividends or other amounts paid concerning securities, options, stock appreciation rights (SARs), loans, deferred compensation or other obligations issued to a NEO during the financial year or payable during that period but deferred at the election of the NEO. Above-market or preferential means a rate greater than the rate ordinarily paid by the company or its subsidiary on securities or other obligations having the same or similar features issued to third parties. Any above-market portion not reported in column (e) should be reported in column (i);

(c) Earnings on LTIP compensation or dividend equivalents paid during the financial year or payable during that period but deferred at the election of the NEO;

(d) Amounts reimbursed during the financial year for the payment of taxes;

(e) The difference between the price paid by a NEO for a security of your company or its subsidiaries that was purchased from your company or its subsidiaries and the fair market value of the security at the time of purchase, unless the discount was available generally, either to all securityholders or to all salaried employees of your company;

(f) The imputed interest benefits from loans provided to, or debts incurred on behalf of, the NEO by your company and its subsidiaries as computed in accordance with the *Income Tax Act* (Canada); and

(g) The amounts of loan or interest obligations of the NEO to your company, its subsidiaries or third parties that were serviced or settled by the company or its subsidiaries without the substitution of an obligation to repay the amount to the company or subsidiaries in its place.

- Column (f) - includes the number of securities under option (with or without SARs awarded with the options) and, separately, the number of securities subject to freestanding SARs. The figures in this column for the most recent fiscal year should equal those reported in the table in section 4.1, column (b). These figures are not cumulative.

- If at any time during the most recently completed financial year your company repriced options or freestanding SARs previously awarded to a NEO, disclose the repriced options or SARs as new options or SARs grants in column (f).

- Column (g) - includes the dollar value (net of consideration paid by the NEO) of any shares or units that are subject to restrictions on resale (calculated by multiplying the closing market price of your company's freely trading shares on the date of grant by the number of stock or stock units awarded).

- In a footnote to column (g) disclose

- the number and value of the aggregate holdings of shares and units that are subject to restrictions on resale at the end of the most recently completed financial year;

- for any shares or units that are subject to restrictions on resale that will vest, in whole or in part, in less than

three years from the date of grant, the total number of securities awarded and the vesting schedule; and

- whether dividends or dividend equivalents will be paid on the shares and units that are subject to restrictions on resale disclosed in the column.

- Column (h) - includes the dollar value of all payouts under LTIPs.

- Awards of shares or units that are subject to restrictions on resale that are subject to performance-based conditions prior to vesting may be disclosed as LTIP awards under the table in section 3.1 instead of under column (g). If this approach is selected, once the share or unit vests, it must be reported as an LTIP payout in column (h).

- If any specified performance target, goal or condition to payout was waived regarding any amount included in LTIP payouts, disclose this fact in a footnote to column (h).

- Column (i) - must include, but is not limited to,

(a) The amount paid, payable or accrued to a NEO for

(i) the resignation, retirement or other termination of the NEO's employment with your company or one of its subsidiaries; or

(ii) a change in control of your company or one of its subsidiaries or a change in the NEO's responsibilities following such a change in control.

(b) The dollar value of the above-market portion of all interest, dividends or other amounts earned during the financial year, or calculated with respect to that period, excluding amounts that are paid during that period, or payable during that period at the election of the NEO that were reported as other annual compensation in column (e). See the description for column (e), point (b) for an explanation of the above market portion.

(c) The dollar value of amounts earned on LTIP compensation during the financial year, or calculated with respect to that period, and dividend equivalents earned during that period except that amounts paid during that period, or payable during that period at the election of the NEO must be reported as other annual compensation in column (e).

(d) Annual contributions or other allocations by the company or its subsidiaries to vested and unvested defined contribution plans or employee savings plans. These benefits are not considered to be perquisites due to their all-inclusive nature.

(e) The dollar value of any insurance premium paid by, or on behalf of, your company or its subsidiaries during the financial year with respect to term life insurance for the benefit of a NEO. If there is an arrangement or understanding, whether formal or informal, that the NEO has received or will receive or be allocated an interest in any cash surrender value under the insurance policy, either

(i) the full dollar value of the remainder of the premiums paid by, or on behalf of, the company or its subsidiaries; or

(ii) if the premiums will be refunded to the company or its subsidiaries on termination of the policy, the dollar value of the benefit to the NEO of the remainder of the premium paid by, or on behalf of, the company or its subsidiaries during the financial year. This benefit must be determined for the period, projected on an actuarial basis, between payment of premium and the refund.

(f) If the NEO's compensation takes the form of a contribution to assist in the NEO's purchase of shares, the amount of the contribution, unless the contribution was available generally, either to all securityholders or to all salaried employees of the company.

- The same method of reporting under this paragraph must be used for each NEO. If your company changes methods of reporting from one year to the next, that fact and the reason for the change must be disclosed in a footnote to column (i).

- The following need not be reported in column (i):

- (i) LTIP awards and amounts received on exercise of options and SARs; and

- (ii) information on defined benefit and actuarial plans.

2. The \$150,000 threshold only applies to the most recent fiscal year in determining the NEOs.

3. If, during any of the financial years covered by the table, your company or its subsidiaries did not employ a NEO for the entire financial year, disclose this fact and the number of months the NEO was so employed during the year in a footnote to the table.

4. If during any of the financial years covered by the table, a NEO was compensated by a non-sub subsidiary affiliate of your company, disclose in a note to the table

- (a) the amount and nature of such compensation; and

- (b) whether the compensation is included in the compensation reported in the table.

5. Information with respect to a financial year-end prior to the most recently completed financial year-end need not be provided if your company was not a reporting issuer at any time during such prior financial year.

### **Item 3 - LTIP Awards Table**

#### ***3.1 - LTIP - Awards In Most Recently Completed Financial Year***

NEO Name	Securities, Units or Other Rights (#)	Performance or Other Period Until Maturation or Payout	Estimated Future Payouts Under Non-Securities-Price-Based Plans

A	.	.	.	.	.
B	.	.	.	.	.
C	.	.	.	.	.

1. Complete this table for each LTIP award made to the NEOs during the most recently completed financial year. Note the following:

- Column (b) - Include the number of securities, units or other rights awarded under any LTIP and, if applicable, the number of securities underlying any such unit or right.
- Columns (d) to (f) - For plans not based on stock price, the dollar value of the estimated payout or range estimated payouts under the award (threshold, target and maximum amount), whether such award is denominated in stock or cash.
- Threshold is the minimum amount payable for a certain level of performance under the plan.
- Target is the amount payable if the specified performance target(s) is reached. You should provide a representative amount based on the previous financial year's performance if the target award is not determinable.
- Maximum is the maximum payout possible under the plan.

2. Describe in a footnote to the table, the material terms of any award, including a general description of the formula or criteria applied in determining the amounts payable. You are not required to disclose confidential information that would adversely affect your company's competitive position.

3. A grant of two instruments in conjunction with each other, only one of which is under an LTIP, need be reported only in the table applicable to the other instrument.

## Item 4 - Options and SARs

### 4.1 - Option/SAR Grants During The Most Recently Completed Financial Year

NEO Name	Securities, Under Options/SARs Granted (#)	Per cent of Total Options/SARs Granted to Employees in Financial Year	Exercise or Base Price (\$/Security)	Market Value of Securities Underlying Options/SARs on the Date of Grant (\$/Security)	Expiration Date
(a)	(b)	(c)	(d)	(e)	(f)
CEO	.	.	.	.	.
CFO	.	.	.	.	.
A	.	.	.	.	.
B	.	.	.	.	.
C	.	.	.	.	.

1. Complete this table for individual grants of options to purchase or acquire securities of your company or any of its subsidiaries (whether or not in conjunction with SARs) and freestanding SARs made during the most recently completed financial year to each of NEO. Note the following:

- The information must be presented for each NEO in groups according to each issuer and class or series of security underlying the options or SARs granted and within these groups in reverse chronological order. For each grant, disclose in a footnote the issuer and the class or series of securities underlying the options or freestanding SARs granted.
- If more than one grant of options or freestanding SARs was made to a NEO during the most recently completed financial year, a separate row must be used to provide the particulars of each grant. However, multiple grants during a single financial year to a NEO can be aggregated if each grant was made on the same terms (eg. exercise price, expiration date and vesting thresholds, if any).
- A single grant of options or freestanding SARs must be reported as separate grants for each tranche with a different exercise or base price, expiration date or performance-vesting threshold.
- Each material term of the grant, including but not limited to the date of exercisability, the number of SARs, dividend equivalents, performance units or other instruments granted in conjunction with options, a performance-based condition to exercisability, a re-load feature or a tax-reimbursement feature must be disclosed in a footnote to the table.
- Options or freestanding SARs granted in an option repricing transaction must be disclosed.
- If the exercise or base price is adjustable over the term of an option or freestanding SAR in accordance with a prescribed standard or formula, include in a footnote to the table, a description of the standard or formula.
- If any provision of an option or SAR (other than an anti-dilution provision) could cause the exercise or base price to be lowered, a description of the provision and its potential consequences must be included in a footnote to the table.

- In determining the grant date market value of the securities underlying options or freestanding SARs, use either the closing market price or any other formula prescribed under the option or SAR plan. For options or SARs granted prior to the establishment of a trading market in the underlying securities, the initial offering price may be used.

**4.2 - Aggregated Option/SAR Exercises During The Most Recently Completed Financial Year And Financial Year-End Option/SAR Values**

NEO Name	Securities, Acquired on Exercise (#)	Aggregate Value Realized (\$)	Unexercised Options/SARs at FY-End (#) Exercisable/Unexercisable	Value of Unexercised in-the-Money Options/SARs at FY-End (\$) Exercisable/Unexercisable
(a)	(b)	(c)	(d)	(e)
CEO	.	.	.	.
CFO	.	.	.	.
A	.	.	.	.
B	.	.	.	.
C	.	.	.	.

1. Complete this table for each exercise of options (or SARS awarded with the options) and freestanding SARs during the most recently completed financial year by each NEO and the financial year-end value of unexercised options and SARs, on an aggregated basis. Note the following:

- Column (c) - the aggregate dollar value realized upon exercise. The dollar value is equal to column (b) times the difference between the market value of the securities underlying the options or SARs at exercise or financial year-end, respectively, and the exercise or base price of the options or SARs.
- Column (d) - the total number of securities underlying unexercised options and SARs held at the end of the most recently completed financial year, separately identifying the exercisable and unexercisable options and SARs.
- Column (e) - the aggregate dollar value of in-the-money, unexercised options and SARs held at the end of the financial year, separately identifying the exercisable and unexercisable options and SARs. The dollar value is calculated the same way as in column (c). Options or freestanding SARs are in-the-money at financial yearend if the market value of the underlying securities on that date exceeds the exercise or base price of the option or SAR.

## Item 5 - Option and SAR Repricings

### 5.1 - Table of Option and SAR Repricings

NEO Name	Date of Repricing	Securities Under Options/SARs Repriced or Amended (#)	Market Price of Securities at Time of Repricing or Amendment (\$/Security)	Exercise Price at Time of Repricing or Amendment (\$/Security)	New Exercise Price (\$/Security)	Length of Original Option Term Remaining at Date of Repricing or Amendment
(a)	(b)	(c)	(d)	(e)	(f)	(g)
CEO	.	.	.	.	.	.
CFO	.	.	.	.	.	.
A	.	.	.	.	.	.
B	.	.	.	.	.	.
C	.	.	.	.	.	.

1. Complete this table if at any time during the most recently completed financial year, your company has repriced downward any options or freestanding SARs held by any NEO.

2. State the following information for all downward repricings of options or SARs held by any NEO during the shorter of

(a) the 10 year period ending on the date of this Form; and

(b) the period during which your company has been a reporting issuer.

3. Information about a replacement grant made during the financial year must be disclosed even if the corresponding original grant was cancelled in a prior year. If the replacement grant is not made at the current market value, describe this fact and the terms of the grant in a footnote to the table.

4. The information must be presented in groups according to issuer and class or series of security underlying options or SARs and within these groups in reverse chronological order.

5. In a narrative immediately before or after this table, explain in reasonable detail the basis for all downward repricings during the most recently completed financial year of options and SARs held by any of the NEOs.

**Item 6 - Defined Benefit or Actuarial Plan Disclosure**

**6.1 - Pension Plan Table**

Remuneration (\$)	Years of Service				
	15	20	25	30	35
125,000	.	.	.	.	.
150,000	.	.	.	.	.

400,000	.	.	.	.	.
[insert additional rows as appropriate for additional increments]	.	.	.	.	.
.	.	.	.	.	.

1. Complete this table for defined benefit or actuarial plans under which benefits are determined primarily by final compensation (or average final compensation) and years of service. The estimated annual benefits payable upon retirement (including amounts attributable to any defined benefit supplementary or excess pension awards plan) for the specified compensation and years of service should be disclosed.

2. Immediately following the table disclose

(a) the compensation covered by the plan(s), including the relationship of the covered compensation to the compensation reported in the table in section 2.1;

(b) the current compensation covered by the plan for any NEO whose total compensation differs substantially (by more than 10 per cent) from that set out in the table in section 2.1;

(c) a statement as to the basis upon which benefits are computed (for example; straight-life annuity amounts), and whether or not the benefits listed in the table are subject to any deduction for social security or other offset amounts such as Canada Pension Plan or Québec Pension Plan amounts; and

(d) the estimated credited years of service for each NEO.

3. Compensation disclosed in the table must allow for reasonable increases in existing compensation levels or, alternately, you may present, as the highest compensation level in the table, an amount equal to 120 per cent of the amount of covered compensation of the most highly compensated of the NEOs.

4. For defined benefit or actuarial plans which are not reported in the table in section 6.1 because the benefits are not determined primarily by final compensation (or average final compensation) or years of service, state in narrative form

(a) the formula by which benefits are determined; and

(b) the estimated annual benefits payable upon retirement at normal retirement age for each of the NEOs.

#### **Item 7 - Termination of Employment, Change in Responsibilities and Employment Contracts**

7.1 Describe the terms and conditions, including dollar amounts, of each of the following contracts or arrangements which are in existence at the end of the most recently completed financial year:

(a) any employment contract between your company or its subsidiaries and a NEO; and

(b) any compensatory plan, contract or arrangement, where a NEO is entitled to receive more than \$100,000 from the issuer or its subsidiaries, including periodic payments or instalments, in the event of

(i) the resignation, retirement or any other termination of the NEO's employment with your company and its subsidiaries;

(ii) a change of control of your company or any of its subsidiaries; or

(iii) a change in the NEO's responsibilities following a change in control.

7.2 A cross reference to disclosure already made of any payments, instalments or contributions to defined benefit pension plans under Items 2 or 6 is permitted.

#### **Item 8 - Composition of the Compensation Committee**

8.1 If any compensation is reported in Items 2 to 6 for the most recently completed financial year, under the caption "Composition of the Compensation Committee", identify each member of your company's compensation committee (or other board committee performing equivalent functions or in the absence of any such committee, the entire board of directors) during the most recently completed financial year. Also, indicate each committee member who

(a) was, during the most recently completed financial year, an officer or employee of your company or any of its subsidiaries;

(b) was formerly an officer of your company or any of its subsidiaries;

(c) had or has any relationship that requires disclosure by your company under Form 51-102F5 *Information Circular*, Item 10 "Indebtedness of Directors and Executive Officers" and Item 11 "Interest of Informed Persons in Material Transactions";

(d) was an executive officer of your company and also served as a director or member of the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another issuer, one of whose executive officers served either

(i) on the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of the issuer; or

(ii) as a director of the issuer.

8.2 If the composition of the compensation committee changed during the year or before the report in Item 9 "Report on Executive Compensation" is prepared, then disclose the change in membership as well as any of

the relationships described in section 8.1, if any.

## **Item 9 - Report on Executive Compensation**

9.1 If any compensation is reported in Items 2 to 6 for the most recently completed financial year, describe under the caption "Report on Executive Compensation" the policies of the compensation committee or other board committee performing equivalent functions, or in the absence of any such committee then of the entire board of directors of your company, during the most recently completed financial year, for determining compensation of executive officers. Boilerplate language should be avoided.

9.2 This report should include a discussion of

(a) the relative emphasis of your company on cash compensation, options, SARs, securities purchase programs, shares or units that are subject to restrictions on resale and other incentive plans, and annual versus longterm compensation;

(b) whether the amount and terms of outstanding options, SARs, shares and units subject to restrictions on resale were taken into account when determining whether and how many new option grants would be made;

(c) the specific relationship of your company's performance to executive compensation, and, in particular, describing each measure of your company's performance, whether quantitative or qualitative, on which executive compensation was based and the weight assigned to each measure, e.g. percentage ranges; and

(d) the waiver or adjustment of the relevant performance criteria and the bases for the decision if an award was made to a NEO under a performance-based plan despite failure to meet the relevant performance criteria. For example, you should explain how bonuses are earned and why they were awarded this period, if applicable.

9.3 The report should state the following information about each CEO's compensation:

(a) the bases for the CEO's compensation for the most recently completed financial year, including the factors and criteria upon which the CEO's compensation was based and the relative weight assigned to each factor;

(b) the competitive rates, if compensation of the CEO was based on assessments of competitive rates, with whom the comparison was made, the nature of, and the basis for, selecting the group with which the comparison was made and at what level in the group the compensation was placed. Disclose if different competitive standards were used for different components of the CEO's compensation; and

(c) the relationship of your company's performance to the CEO's compensation for the most recently completed financial year, describing each measure of your company's performance, whether quantitative or qualitative, on which the CEO's compensation was based and the weight assigned to each measure, for example, percentage ranges.

9.4 Name each member of your company's compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors). If the board of directors modified or rejected in any material way any action or recommendation by the committee with respect to decisions in the most recently completed financial year, the report should indicate this fact, explain the reasons for the board's action and include the names of all of the members of the board.

9.5 If a compensation committee member dissents concerning the content of the report, the report must identify the dissenting member and the reasons provided to the committee for the dissent.

9.6 Disclosure of target levels with respect to specific quantitative or qualitative performance-related factors considered by the committee (or board), or any factors or criteria involving confidential information is not required.

9.7 If compensation of executive officers is determined by different board committees, a joint report may be presented indicating the separate committee's responsibilities and members of each committee or alternatively separate reports may be prepared for each committee.

## **Item 10 - Performance Graph**

10.1 If any compensation is reported in response to Items 2 to 6 for the most recently completed financial year, immediately after Item 9, provide a line graph called "Performance Graph" comparing

(a) the yearly percentage change in your company's cumulative total shareholder return on each class or series of equity securities that are publicly traded, as measured in accordance with section 10.2, with

(b) the cumulative total return of a broad equity market index assuming reinvestment of dividends, that includes issuers whose securities are traded on the same exchange or are of comparable market capitalization, provided that, if your company is within the S&P/TSX Composite Index, you must use the total return index value of the S&P/TSX Composite Index.

10.2 The yearly percentage change in your company's cumulative total shareholder return on a class or series of securities must be measured by dividing

(a) the sum of

(i) the cumulative amount of dividends for the measurement period, assuming dividend reinvestment, and

(ii) the difference between the price for the securities of the class or series at the end and the beginning of the measurement period, by

(b) the price for the securities of the class or series at the beginning of the measurement period.

At the measurement point, which is the beginning of the measurement period, the closing price must be converted into a fixed investment of \$100 in your company's securities (or in the securities represented by a given index), with cumulative returns for each subsequent financial year measured as a change from that investment.

10.3 In preparing the required graphic comparisons,

(a) use, to the extent feasible, comparable methods of presentation and assumptions for the total return calculations, provided that, if your company constructs its own peer group index under section 10.5(b), the same methodology must be used in calculating both your company's total return and that of the peer group index;

(b) assume the reinvestment of dividends into additional securities of the same class or series at the frequency with which dividends are paid on the securities during the applicable financial year; and

(c) each financial year should be plotted with points showing the cumulative total return as of that point. The

value of the investment as of each point plotted on a given return line is the number of securities held at that point multiplied by the then-prevailing security price.

*10.4* You must present information for your company's last five most recently completed financial years, and may choose to graph a longer period but the \$100 measurement point remains the same. A period shorter than five years may be used if the class or series of securities forming the basis for the comparison has been publicly traded for a shorter time period.

*10.5* You also may elect to include in the graph a line charting the cumulative total return, assuming reinvestment of dividends, of

(a) a published industry or line-of-business index which is any index that is prepared by a party other than your company or its affiliate and is accessible to your company's securityholders, provided that, you may use an index prepared by your company or its affiliate if such index is widely recognized and used;

(b) peer issuer(s) selected in good faith. If you do not select your company's peer issuers on an industry or line-of-business basis, you must disclose the basis for your selection; or

(c) issuer(s) with similar market capitalization(s), but only if you do not use a published industry or line-of-business index and do not believe you can reasonably identify a peer group. If you use this alternative, the graph must be accompanied by a statement of the reasons for this selection.

*10.6* If you use peer issuer comparisons or comparisons with issuers with similar market capitalizations, the identity of those issuers must be disclosed and the returns of each component issuer of the group must be weighted according to the respective issuer's market capitalization at the beginning of each period for which a return is indicated.

*10.7* Any election to use an additional index under section 10.5 is considered to apply in respect of all subsequent financial years unless abandoned by your company in accordance with this section. To abandon the index, your company must have, in the information circular or AIF for the financial year immediately preceding the most recently completed financial year

(a) stated its intention to abandon the index;

(b) explained the reason(s) for this change; and

(c) compared your company's total return with that of the elected additional index.

*10.8* You may include comparisons using performance measures in addition to total return, such as return on average common shareholders' equity, so long as your company's compensation committee (or other board committee performing equivalent functions or in the absence of any such committee the entire board of directors) describes the link between that measure and the level of executive compensation in the report required by Item 9.

## **Item 11 - Compensation of Directors**

*11.1* Disclose the following under the "Compensation of Directors" heading:

(a) any standard compensation arrangements, stating amounts, earned by directors of your company for their services as directors from your company and its subsidiaries during the most recently completed financial year, including any additional amounts payable for committee participation or special assignments;

(b) any other arrangements, stating the amounts paid and the name of the director, under which directors were compensated for their services as directors from your company and its subsidiaries during the most recently completed financial year; and

(c) any other arrangements, stating the amounts paid and the name of the director, under which directors of your company were compensated for services as consultants or experts, by your company and its subsidiaries during the most recently completed financial year.

*11.2* If information required by section 11.1 is provided in response to another item of this Form, a cross-reference to where the information is provided satisfies section 11.1.

### **Item 12 - Unincorporated Issuers**

*12.1* Unincorporated issuers must report

(a) a description of and amount of fees or other compensation paid by the issuer to individuals acting as directors or trustees of the issuer for the most recently completed financial year; and

(b) a description of and amount of expenses reimbursed by the issuer to such individuals as directors or trustees during the most recently completed financial year.

*12.2* The information required by this Item may be disclosed in the issuer's annual financial statements instead.

### **Item 13 - Venture Issuers**

*13.1* A venture issuer may omit the disclosure required by Items 5, 6, 8, 9 and 10. A venture issuer must, in a narrative that accompanies the table required in section 4.1, disclose which grants of options or SARs result from repricing and explain in reasonable detail the basis for the repricing.

### **Item 14 - Issuers Reporting in the United States**

*14.1* Except as provided in section 14.2, SEC issuers may satisfy the requirements of this Form by providing the information required by Item 402 "Executive Compensation" of Regulation S-K under the 1934 Act.

*14.2* Section 14.1 is not available to an issuer that, as a foreign private issuer, satisfies Item 402 of Regulation S-K by providing the information required by Items 6.B "Compensation" and 6.E.2 "Share Ownership" of Form 20-F under the 1934 Act.
